

FIFA 23 PREDICTS: THE WOMEN'S

WE USED THE FIFA 23 WOMEN'S WORLD CUP GAME MODE TO PREDICT THE OUTCOME OF THE WORLD CUP – THIS IS HOW IT WENT!

HOMENATION

SHOCKERS!

The home nations had a tricky time in the groups and only **England** made it to the knockout stage.

Another shock early exit was the **USA**, who are well regarded as favourites to lift the trophy. We hope they can perform better in real life this summer!

NOT GERMANY,

AGAIN!

After beating **Canada**, **England** faced their old competition rival **Germany** in a replay of what was the **Euro 2022 Final!**

This time it was a much trickier game, as **The Lionesses** had to beat the **Germans** on pens to earn a place in the **Quarter Finals!**

HOST NATION

MATCHUP!

Co-host nation **Australia** were the next opponent for **The Lionesses** and they nearly stormed their way to a final on home turf.

A late equaliser from **Georgia Stanway** sent it to extra time, then the new captain **Millie Bright** popped up with a headed winner to send **England** to the **Final!**

DOUBLE

COMPLETE!

Sweden will be the ones to watch this tournament. In the simulation, they did brilliantly and made it to the **Final**. But **England** breezed to a 4-0 lead and it took 80 minutes for **Sweden** to finally wake up and score two goals, but by then it was too late! **England** lifted the trophy to complete an international double after winning the **Euros** last year. Result!

WORLD CUP!

This thing is shiny!

TOP GOALSCORERS!

Sam Kerr and Alexia Putellas are expected to top the World Cup goalscoring charts in real life, but they finished second and third in our simulation. Arsenal's Alessia Russo banged in six goals to take the Golden Boot and lead The Lionesses to glory!

Goals for days!

BIGGEST SURPRISES!

South Africa were the biggest surprise package. They took points off Italy, Argentina and Sweden in the group stage, beat Portugal in the Round of 16 and only just lost to one of the favourites, Norway, in the Quarter Finals. Keep an eye on them this summer!
