

MAKE A FIREFIGHTER

YOU WILL NEED:

- Black paint
- Cardboard tubes
- Strip of cardboard
- Glue
- Thin card
- Scissors
- White pen
- Paper straw

PAINT all cardboard pieces and leave to dry. Whilst they are drying, stick the opposite page to thin card and cut out the pieces.

FOLD one end of a cardboard tube to make a pouch, then use a pen to add detail.

STICK the radio to the other cardboard tube and glue the straw to the top of it.

STICK the decorations and the cardboard tubes to the long length of cardboard and wrap it around your waist so you're always ready for an emergency!

BELT!

WAIT!

Finish the activities on the other pages before cutting out!
