Maximize Quality Time with Loved Ones: Simplify Recipe Planning and Shopping

CHICAGO, IL – Your spouse’s favorite lasagna, your kids’ special cookies, your grandma’s beloved cake recipe. All these recipes are cherished and hold meaning. But how do we find an easy way to search, shop and save your recipes all in one place? Beth Anaclerio developed the solution: QuickRecipe Companion.

Gone are the days of spending countless hours scouring through multiple sources for recipes and wandering aimlessly in supermarkets. QuickRecipe Companion streamlines the process, allowing you to access a comprehensive recipe index, create a consolidated shopping list, and save your favorite recipes for quick retrieval.

According to Medium.com, “the average person spends 130 hours a year in the supermarket, which could add up to around nine whole months over a lifetime.” Anaclerio says, “I am excited for people to get to know the app and experience an easier shopping experience to spend more time on what matters most – family and life.”

In a world where time is precious, QuickRecipe Companion aims to give you back valuable moments with your loved ones. As summer gatherings approach, embrace the opportunity to spend more quality time with family and friends, and less time on mundane tasks. QuickRecipe Companion is available for download on both the Apple App Store and Google Play Store.

QuickRecipe Companion

QuickRecipe Companion is your partner in prep - one app, one shopping list, all you need. Combine recipes from your favorite cookbooks into a single shopping list. With your cookbooks in the kitchen and QuickRecipe Companion App on your phone, you’ll never be without the information you need to get a meal on the table.
