Minor: Real Estate

The Posse Foundation Full-Tuition Scholarship (2023-2027)

Washington, DC

May 2027

WHITEWATER HIGH SCHOOL

GPA: 3.95

Whitewater PTSO Scholarship (2023)

American Legion Award (2023)

Fayetteville, GA

August 2019 - May 2023

EXPERIENCE

Fayette Veterinary Clinic

Kennel Staff

Fayetteville, Georgia

June 2022 - April 2023

- Worked my way up from a general kennel employee to a kennel tech, which included more responsibilities and obligations. These obligations included: Administering medication to boarded animals, facilitating scheduling amongst kennel staff, and leading conversations within the slack messaging app.
- Learned how to work efficiently with a team as times in the kennel were often hectic and chaotic. Not only did these instances teach me how to be flexible on a whim, but it also taught me there is almost always a solution to a dilemma.
- Developed a new sense of independence in the work environment that allowed me to grow as an individual.

Great American Cookie/Marble Slab

General employee

Fayetteville, Georgia

October 2020 - May 2022

- Developed soft skills by interacting with customers on a daily basis, who often introduced situations that involved high emotions. I often had to diffuse situations such as these, so that the customer left the store satisfied.
- Learned to work under high amounts of stress, as business was especially heavy during holidays. Often there were only two other employees and a manager, therefore, employees had to work efficiently in order to reduce mistakes that were likely to increase customer wait times.
- Emphasized a productive work environment, in which employees communicated effectively and transparently with one another, so that the store ran more efficiently.

Fayette Piedmont Hospital

Central Sterile Employee

Fayetteville, Georgia

July 2022 - August 2022

- Observed how sterilization of medical equipment in hospitals was conducted.
- Aided in the movement of sterilization trays and medical equipment. During periods of increased surgeries, it was important to swiftly move the sterilized equipment, so that the surgeons had equipment ready for their surgeries.
- Maintained overall cleanliness of central sterile, which was essential to the hospital's overall maintenance.

SKILLS/ACTIVITIES

Technical: Google Docs, Excel, Canva, Microsoft Word

Skills: Soft skills, conversational skills, stress management, and team building

Interests: Reading thriller and Sci-Fi books, Being outside, Playing tennis

- Volunteering at the Midwest Food Bank, Peachtree City, GA, 2022-2023
- Worked as Secretary for Science National Honors Society
- Served on the Principal's Advisory Board in High School
