

JA Summer Institute

About JA Summer Institute

This summer, 60 high school students will join JA of Greater Boston in-person at MIT for five days for our 11th annual JA Summer Institute August 5th through August 9th.

During this program, students engage in a series of interactive company-led workshops focused on financial literacy, career readiness, and entrepreneurship. The week culminates with Speed Networking, where students apply what they've learned while connecting with business professionals like you.

Find out how you can share your company's expertise as an industry leader and volunteer.

About JA of Greater Boston

Together with our school, business, and community partners, JA of Greater Boston draws on its 70+ year history to prepare today's youth for the workforce of tomorrow. Through our proven, hands-on programs and experiences, middle and high school students learn how to manage their finances, launch their own businesses, make their college and career goals a reality, and become future leaders.

A Special Thankyou

This event is made possible by the generous donation from Experian. With Experian's generosity, JA is able to provide all students attending JA Summer Institute with a \$500 stipend to offset lost workable hours many students would not be able to sacrifice to attend this impactful five day event.
