

Husqvarna AUTOMOWER 315X Robotic Lawn Mower

Meta Description

If you are a homeowner seeking a hands-free, high-tech solution for maintaining small to medium-sized lawns, then this device is definitely for you. It offers a compelling alternative to traditional mowing and it has advanced features for efficient performance.

Mowing the traditional way for a lot of home owners can be tedious work, and most oftenly one can hardly find enough time to be mowing regularly. Well, if you are the kind of person that experiences such problems when it comes to mowing, I highly recommend the Husqvarna AUTOMOWER 315X Robotic Lawn Mower that will help make your work much easier and save much of your time.

Husqvarna AUTOMOWER 315X Robotic Lawn Mower breakdown and review

- Compact design makes it easier to navigate through narrow passages
- Built-in theft protection feature that makes it difficult to be stolen

The Husqvarna AUTOMOWER 315X Robotic Lawn Mower possesses a compact design that makes the small passages easy to pass through. The machine is only 20.1 inches wide, and this feature enables it to sense narrow passages and easily navigate through them. The slim body and its responsive sensors allow it to detect and be able to get into areas that the traditional mowers cannot for instance through gated sections and between flower beds. The design is to ensure full coverage and to make sure that it does not get stuck.

Its built-in theft protection feature makes sure that the mower sounds like a high-volume alarm that can only be deactivated with a unique PIN code. The machine also has a GPS so that if anybody steals it, it can be located. One can set a virtual boundary so that if the mower crosses it, you receive an immediate notification.

It is actually good and advisable to purchase this machine because with all these great features, it makes sure that your investment remains protected.

Pros

It is incredibly quiet

It is very efficient

It makes the yard look great

It is time-saving

Cons

It is expensive

Covers relatively small lawns

Husqvarna AUTOMOWER 315X Robotic Lawn Mower Features

Advanced Theft Protection Feature

As mentioned earlier, the Husqvarna AUTOMOWER 315X Robotic Lawn Mower has an in-built theft protection feature. Since security is a big deal for high-end robotic mowers, this machine handles it well. It comes ready with a multi-layered theft protection system. First, it has a PIN code lock that prevents any other person from operating it without your unique code. It also has a loud alarm that notifies you if someone else may be handling it. Lastly, it has an in-built GPS tracker that lets you see its location all the time through an app. If anybody tries to steal your mower, you will know exactly where it is.

Assisted navigation.

The Husqvarna AUTOMOWER 315X Robotic Lawn Mower has a GPS-assisted navigation feature that helps you locate your mower and track the areas that have already been cut. This provides complete and even coverage even with the complex and irregularly shaped lawns. Unlike the traditional mowers, this machine plans its tracks and this helps to reduce wear on certain areas. In case there is an interruption while it works, the GPS helps it to resume from where it left off. This kind of feature helps in saving time and ensures that your lawn looks evenly cut and well maintained.

Smartphone control

One of the features that stand out in this machine is the ability to control it using your smartphone. The Automower Connect App allows full control at the comfort of your smartphone. You can control the mower from wherever you are, being at work, or at home and this app alerts you if there is any issue. This kind of feature makes your experience hand-free and convenient, a perfect choice for homeowners that love technology and automation.

Who is it best suited for?

Since the mower is limited to its mowing speed and efficiency, it would best suit homeowners with a medium-sized lawn size. These mowers are very helpful and they are worth the expense and do the work efficiently.

Alternatives to the Husqvarna AUTOMOWER 315X Robotic Lawn Mower

There are other alternatives to this mower, that also work efficiently and are worth the cost. In place of this mower, you can use the Automower 115H, Automower 115H with HG, Automower 430X or the Automower 430XH

This device has the kind of features that help you save time and make sure the lawn looks evenly cut and professionally maintained, this kind of mower can also best suit homeowners that interested in tech automation and modernized machines. In addition, it is worth the expense and makes sure your investment remains protected.

FAQs

1. Do I need to be tech-savvy to use Automower?

No, anybody can use Automower. It is very light as compared to conventional lawn mowers weighing about 15-30 pounds. The control panel is intuitive to operate and once in use it can be left alone to do its job.

2. Is Automower noisy?

Not at all. The sound level of Automower is extremely low ranging from 69db (A) to as little as 58 db (A) depending on the model. The average level of normal mowers is between 95 and 100db(A) of noise.
