

GIVING PRIORITIES

Little Flower serves the community in so many important ways. Here are just a few of the areas where your donations can make a difference.

Aftercare Project

With your support, we can enhance this impactful program for youth transitioning to adulthood from foster care. Currently, we offer youth skill-building and mentoring through age 26, coaching them in life skills such as using a debit card, opening a bank account, filling out college applications and finding housing. Your support helps us expand and enhance this program.

Innovation Fund

Our groundbreaking Innovation Fund supports promising new program ideas and meets emerging community needs. It gives us the flexibility to rapidly pursue innovation and growth.

Community Kitchen

Our new, commercial-grade kitchen will support our culinary arts program to provide youth with marketable skills in food preparation and hospitality.

General support for our mission

This is a powerful resource that allows us to meet needs such as updating the furnishings for our residences and modernizing the playground on the Wading River campus. It helps us provide youth with tutoring services, enrichment opportunities, gift cards, tickets to sporting and entertainment events, clothing, toiletries and other personal items.
