

ABOUT ST. JOHN'S

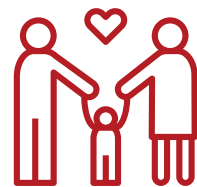

Since its origins in 1826 as a home for orphaned children, St. John's has undergone many changes alongside the evolving needs of those we serve. Today, St. John's is a nonprofit social services organization that provides residential services to youth up to age 21 who are in foster care or who are involved in the juvenile justice system. The campus provides youth with holistic care in an enriching environment, including education, recreation and therapeutic services. St. John's is dedicated to helping youth grow socially and emotionally, achieve their goals and be engaged members of their communities.

IN 2024, WE...

Served 20 youth in
our Non-Secure
Placement Facilities

Reunited 6
youth with
their families

Helped 5 young adults
navigate transitioning
out of care to begin life
on their own

Cared for 52 youth
in the Residential
Treatment Center
