

HUNGRY FOR AN **AUTOMATED** DATA CENTER

TRY THE  
**SUPREME**

Sirius, an EMC Platinum Partner, brings you the hottest menu item:  
EMC® Enterprise Hybrid Cloud. It's a savory blend of speed,  
choice and simplicity, all baked into one.

Hybrid cloud technology can be implemented in just 28 days as an IaaS foundation.

Hybrid cloud keeps you on the hotbed of innovation without getting burned by compliance issues.

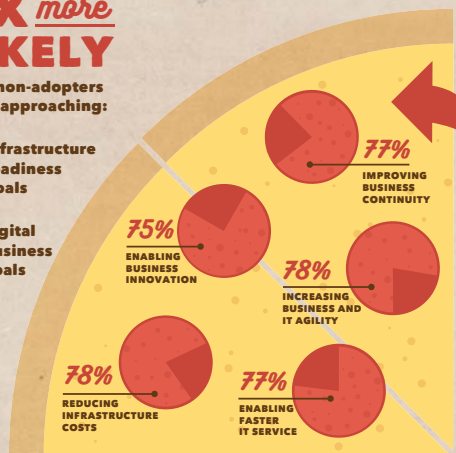

Lower your costs while maximizing your efficiency, reliability and security.

**3X more LIKELY**

than non-adopters to be approaching:

- 1 infrastructure readiness goals
- 2 digital business goals

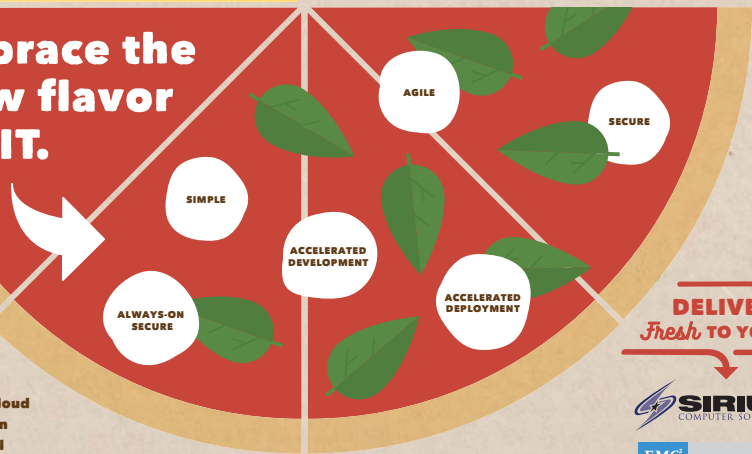

**A sample of success**

EMC Enterprise Hybrid Cloud is your best first step toward internal IaaS, a platform for driving increased internal automation that allows the redirection of time and money from routine maintenance of applications and systems to strategic innovations that support your business goals. If that sounds good to you,

*now's the time to place an order!*

**Embrace the new flavor of IT.**
