## Sirius Included in Channel Partners' '25 Orgs To Watch' List

Sirius was recently named one of *Channel Partners* and *Channel Futures'* *25s Orgs To Watch* due to its aggressive evolution from a “solid VAR operation” to a “profitable professional services provider.”

Featured in an article authored by Channel Futures Content Director [Kris Blackmon](#) in the Spring 2018 edition of Channel Partners, an informa knowledge and networking publication, Sirius was included in this prestigious list for its “forward-thinking approach and agility.” The list is part of an extensive industry analyses of people, suppliers, technologies and trends driving the “new channel,” according to authorities at the publication. The 25-page online and printed magazine provides a dearth of analyses vital to enterprise IT executives at the crossroads of arguably the largest transformation milestone of the century. Other categories of focus in the publication include: eight technologies for 2018, eight business trends for 2018, eight channel innovators and more. Read the [full article and online](#). (requires sign-up and login to download).

Channel Partners and Channel Futures recently joined and established the “new home” for MSPmentor, The VAR Guy and Talkin’ Cloud online publications.

Sirius was ranked #1 on the MSPmentor MSP Global 500 list for 2017.

Sirius holds more than 5,000 professional and technical certifications from roughly 100 of the world's top technology partners. Our highly skilled employees across the United States and Canada are able to assist our clients, wherever they may reside in North America. Our expertise spans the entire spectrum of enterprise IT needs: IT Strategy, Security, Business Innovation, and Cloud & Managed Solutions and beyond. Visit us [online](#) to learn more.
