Sirius Ranks 24 on CRN's Flagship List of the Largest Solution Providers in North America

CRN®, a brand of [The Channel Company](#), named Sirius to its 2018 *Solution Provider 500* list. The list serves as CRN's annual ranking of the largest technology integrators, solution providers and IT consultants in North America by revenue. Sirius placed 24 out of 500 organizations.

The *Solution Provider 500* is CRN's predominant channel partner award list, serving as the industry standard for recognition of the most successful solution provider companies in the channel since 1995. The complete list will be published on [CRN.com](#), making it readily available to vendors seeking out top solution providers to partner with.

"CRN's Solution Provider 500 list spotlights the North American IT channel partner organizations that have earned the highest revenue over the past year, providing a valuable resource to vendors looking for top solution providers to partner with," said Bob Skelley, CEO of The Channel Company. "The companies on this year's list represent an incredible, combined revenue of \$320 billion, a sum that attests to their success in staying ahead of rapidly changing market demands. We extend our sincerest congratulations to each of these top-performing solution providers and look forward to their future pursuits and successes."

The complete 2018 Solution Provider 500 list will be available online at www.crn.com/sp500, and a sample from the list will be featured in the June issue of CRN Magazine.

Sirius holds more than 5,000 professional and technical certifications from roughly 100 of the world's top technology partners. Our highly skilled employees across the United States and Canada are able to assist our clients, wherever they may reside.
