

# Our Patients

At Salus Home Health Care, it is our goal to support members of the community with dignity, compassion, and respect. Our patients benefit from our comprehensive assessment process, one-on-one care and individualized care plans that meet their specific needs and promote health, healing, and independence.

## Salus Patients Include Those Recovering From and Living With:

- Stroke
- Cancer
- Diabetes
- COPD
- Asthma
- Alzheimer's and Dementia
- Parkinson's

## We Specialize in Supporting Individuals Needing:

- Ortho Rehabilitation
- Short Term Home Health Following a Hospital Discharge
- Assistance Managing Chronic Health Conditions

## Salus Home Health Services

Salus Homecare is a full service provider available to assist with all of your home health needs.

Whether you are recovering from an accident or illness, aging in place with a chronic health condition or transitioning home from the hospital, our professional, trained nurse case managers will coordinate all of the services you need to remain safe and comfortable at home.

Choosing Salus Home Health means selecting a full service home care, home health and hospice provider that is respected and recommended by doctors, nurses, medical social workers and other healthcare professionals. We are one of a select few home health agencies to have been awarded the Gold Seal of Approval and national accreditation for quality from the prestigious Joint Commission. This is further assurance of our commitment to excellence and a deciding factor for many of the patients and families who choose us.

## Services Offered by Salus Home Health:

Our industry leading team of professionals offers a wide range of services in the comfort of home. Scheduling is flexible to accommodate your routines and preferences.

- ✓ Nursing Care
- ✓ Wound Care
- ✓ IV Therapy
- ✓ Physical, Occupational and Speech Therapy
- ✓ Medical Social Work Services

## Why Choose Salus?

### 1 Accreditation

- Salus is nationally accredited for quality by the Joint Commission.
- The Joint Commission is the most respected health care accreditation agency with rigorous standards for patient safety and continuity of care.
- Accreditation provides assurance that you are receiving the highest quality home health care available from any provider.

### 2 Your Loved Ones Deserve the Best

All home health providers offer similar services, however, you have a choice when selecting YOUR provider. The decision you make will impact your care, your health, your recovery, and your quality of life. We believe it is important to measure what matters most. Salus Home Health meets or exceeds national quality standards in the following areas:

- Getting timely help after a hospital discharge - within 24-48 hours.
- Family caregiver training and support so you can assist your loved one and remain safe at home.
- Adapting care delivery to your doctor's orders and your treatment preferences.
- Assisting you in obtaining necessary adaptive equipment.

### 3 Salus is Highly Recommended

Perhaps most importantly, our patients and families are more likely to recommend Salus to others.

- Salus receives more 5-star Google reviews than any other Southern California Home Health Provider.
- Visit [salustestimonials.com](https://salustestimonials.com) to read what some of our patients and their families say about us.

## Physicians Prefer Salus Home Health

A growing number of physicians, hospital discharge planners, medical social workers, and other healthcare professionals are referring to Salus Home Health.

***"I've always found Salus to be one of the most professional agencies I deal with. They have a superb clinical team, are always responsive, and I trust them."***
