A Message From Apple Sports App

Be The First To Know

The tournament moves fast — so does your day. The Apple Sports app keeps you informed with real-time scores and play-by-play straight to your iPhone Lock Screen and Apple Watch — no app-opening required.

This March, enjoy morning coffee in one hand — tournament updates in the other. During meetings? At the gym? Commuting home? Steal a look to track upsets, get live betting odds, and drop the latest player stats before anyone else.

No clutter. Just all the scores and play-by-play action you need, exactly when you need it.

Apple Sports is your go-to app for all the madness.
