

EXCEPTIONALLY FRESH AND SUSTAINABLE PRODUCE

US Foods® proudly partners with Kalera®, one of the world's foremost hydroponic indoor vertical farming companies, to bring you a wide range of high-quality greens, including products exclusively available to US Foods customers.

EXPERIENCE THE DIFFERENCE IN KALERA PRODUCTS

- **Exceptionally fresh produce.** Through a regional network of controlled environment indoor farms, Kalera products are harvested for maximum freshness, producing high-quality produce
- **Cost-consistent* and available year-round.** Kalera removes market variability caused by weather conditions with precise environmental controls of their indoor farms
- **Clean room technology.** Kalera's indoor farms and clean room technology produces high-quality leafy greens that are free from pesticides
- **Sustainably grown with less environmental impact.** Kalera products require less water compared to traditional field farming. These greens are non-GMO and free of pesticides and bio-pesticides
