

Dear *|FIRST_NAME|*,

I know you've heard a lot of bad news recently. The world is collectively holding its breath as we wait to exhale til the corona crisis passes over us. But I have some good news. Easter is still coming! Despite it all, Christ's sacrifice on the cross is not cancelled. And for that we can rejoice!

And along with Easter comes my favorite time: Spring, and the promise of new life this season brings.

Now, I'm not much of a gardener, but I've planted a tomato seed or two in my day. I haven't had much luck, but it does feel good to go outside after a few weeks and see that tiny little sprout peeking through the soil. It feels like victory.

I can only imagine that's how God feels when we start living out our faith. When we accept Christ into our lives and blossom because of it. We all have the right seeds inside us. That's His design. We just need a gardener to give us a little water and sunshine in the fertile soil to bloom.

Sweet Daud, 13, had the right seeds inside when he passed through our doors, but no one to water them. His father was an indentured servant in the brick kilns and had no time to nurture Daud's creativity.

DAUD, AGE 9

DAUD, AGE 13

But because you said yes to being the good soil and coming alongside him, Daud now thrives at Redeemer Christian School. He does well in his classes and has an infectious smile and a spirit that can't be broken.

As we enter Holy Week and we celebrate the greatest sacrifice Christ made for us, please consider nourishing the seeds you've helped us sow. I understand these uncertain times are difficult for all of us, but our students need you now more than ever. [Click here](#) to see what seeds we hope to plant this year.

Sincerely,

Becca Schmitt
Director of Development
