

Vyond Studio: A Powerful Drag-and-Drop Video Creator

Create exactly the video you want, faster and easier than ever.

Faster video creation with the power of AI

Vyond Studio is a powerful drag-and-drop video creation solution that applies AI to make building a video fast and simple. Create a character from a photo, automatically translate videos into 70+ languages, remove backgrounds from pictures, enhance recorded voice overs, and much more. Creating engaging, professional-grade business videos has never been easier.

Use your videos anywhere

Vyond videos export easily to the common GIF and MP4 formats. So, whether you plan to upload your videos to a video hosting service, make further optimizations in a courseware authoring tool, or upload videos directly to a Learning Management System (LMS), Vyond videos are easy to use in any learning environment.

Try Vyond Studio today

Easy to use, quick to create

Create the perfect representation of your message - in almost no time at all compared to expensive and time consuming traditional video production. Upload your branded assets for use within our hundreds of premade templates to create videos even faster. With shared libraries, **enterprise level security and data privacy**, along with team administration controls, Vyond Studio makes **creating with your team** straightforward.

Vyond Studio's drag-and-drop functionality makes animated video creation a snap with:

- 3 character styles
- 40,000+ props
- Diverse character customization
- Automatic lip-sync
- Thousands of actions and expressions
- 70+ supported languages
- Automatic captioning
- Instant, infinite library

Vyond Studio is **the leader in hundreds of verified customer reviews** on G2, Capterra, and GetApp.

65% of the Fortune 500 and millions of users trust Vyond

Forward-thinking business leaders rely on Vyond to ensure their mission-critical messages cut through the noise and motivate their stakeholders to take action.

For these leaders and their teams, Vyond's AI-powered video creation platform serves as a secret weapon for driving outstanding business outcomes and ROI across their organizations.
