

A Conversation can Change a Life

Who We Are

Conversations for Good is a 501(c)(3) nonprofit organization connecting job seekers in underserved communities with experienced professionals. Our platform offers flexible volunteer options for advisors to provide valuable one-on-one advice to job seekers.

This guidance helps students and job seekers make more informed decisions about their career paths. We believe that insight and information can take the guesswork out of finding fulfilling careers. We're here to help people pursue the jobs they love.

My mentor really knew his stuff, and gave me insights I didn't even think about. Good service.

—Desmond, MBA Student

Our session was informative and inspiring too. It's kind of like an angel helping out people in need, very kind.

—David, Bank Teller

It was exciting and a definite experience to speak with experts in my field of interest.

—Brian, Environmental Engineer

Thoughtful Matching

We support many types of mentorship, including algorithmic recommendations, self-matching, and administrative matching. Our customizable algorithm recommends the best mentor match for each individual.

Conversations and Networking

Of the available jobs, 80% of them are never posted. They're found through networking. That's one reason why these conversations are so important. Job seekers—advisees—can easily meet our Volunteer Career Advisors over coffee, video chat, and more.

Advisees can find mentors who share their interests or are just a few miles away. This helps them unleash the value of the advisor community and build quality connections that will help them unlock career opportunities. Advisees can quickly search for advisors they may want to meet based on their industries, graduation year, location, and more.

Goal-tracking

Our robust communication tools drive powerful mentor relationships. These tools include built-in video chat, seamless scheduling that allows advisors to set availability, and opportunity to set and share goals.
