WHAT WE DO

Educational Event Support

We raise funds to help families attend educational events where they engage with the community and learn from diabetes experts on how to thrive with the disease.

Local Support

Our fundraisers enable families to attend fun, local community events where both caregivers and children can meet others who share their same journey.

Scholarship

We fund an annual scholarship grant to support one high school senior in New England with Type 1 Diabetes, as well as scholarships to attend an annual diabetes conference.

Partnership

We partner with local endocrinology clinics and the Juvenile Diabetes Research Foundation (JDRF) for local programs, camps and initiatives that support our Type 1 community.

TESTIMONIAL

"Jacob was diagnosed with Type 1 one year ago today. I am so proud of him and the person he is becoming. He has truly showed us his strength and courage. This disease is awful and it came with quite a few emotional lows. Our family was sponsored by a local nonprofit Elbowbumpkid to attend Friends for Life in Florida. This was truly a turning point for Jacob. Jacob came back with a new outlook, more confident and happy. The other kids learned and watched as other families coped with the same struggle Jacob has too. It was an amazing time for us to learn and better ourselves with and for Jacob."
