The Future of Food Processing: Stellar E-Book Provides Strategies Amidst Evolving Market

Resource outlines keys to meet new consumer demands

JACKSONVILLE, Fla. (March 9, 2024) — Stellar, a fully integrated firm focused on design, engineering, construction and mechanical services worldwide, has published a new e-book sharing methods that help food processing facilities stay on top of industry trends while enhancing a company's productivity.

The e-book, titled "Key Influencers Reshaping the Next Decade in Food Processing," highlights a major shift expected in the food and beverage industry and steps facilities can take now to meet greater consumer demand. Topics covered include:

- Demand for variety, flexibility and efficient manufacturing
- Health, safety and quality
- The evolution of packaging
- Increased attention to transparency and traceability
- Automation and data
- Cold storage supply chain management

Stellar provides expert process engineering for food manufacturing companies, serving as a trusted source by industry leaders, such as Starbucks, Nestle, and Pinnacle Foods, in delivering efficient and effective processes and packaging lines. Stellar's relationships with original equipment manufacturers (OEMs) allow the company to offer clients latest advances, resulting in flawlessly executed, high-performance process designs.

The new e-book, "Key Influencers Reshaping the Next Decade in Food Processing," is [available to download for free on Stellar's website](#).

About Stellar

Stellar is a fully integrated design, engineering, construction, refrigeration and mechanical services firm that provides the industry's most comprehensive range of self-performed services, including planning, design, pre-construction, construction, refrigeration, mechanical and utility, building envelope, and total operations and maintenance services. More than 800 Stellar employees

worldwide design, build and maintain award-winning food processing plants, refrigerated warehouses, distribution centers, commercial buildings and military facilities. In addition to its Jacksonville, Florida, headquarters, Stellar operates support locations and offices throughout the United States. Stellar also serves Central and South America, Europe and India.
