### M3P Likely to Benefit Care Goal

A new System Care Goal for Medicare Prescription Payment Plan (M3P) has been added. This addition will provide appropriate instructions to ensure that a hard copy of the [“Medicare Prescription Payment Plan Likely to Benefit Notice”](#) is provided to enrollees identified as likely to benefit (or the person acting on their behalf) at the time the prescription is picked up.

## Product News & Features

### Community Pharmacy Management Software

#### Add Patient Age to Cycle Fill Patient Medication Reports

The *PatientAge* field is now available on the **Cycle Fill Patient Medications** and **Active Cycle Fill Patient Medications** report templates.

This will help pharmacies easily be able to identify patients that are in need of certain vaccines, CMRs, and MTMs to improve workflow efficiency and patient rapport.

#### Add GCN to Priority Fill Request Queue and Patient Profile Grid

The *DispensedItemGCN* column is now available on the **Rx Profile** grid layout and the *GCN* column is now available on the **Fill Request Queue** grid layout.

This will give pharmacies a quick way to compare the existing profile to new escripts to identify new therapies for the patient.
