New Blog: A Beacon of Hope Amid LA Wildfires

Independent pharmacies step up for their communities in ways both big and small. Mickey Fine Pharmacy & Grill has been a source of hope and comfort during the ongoing Southern California wildfires. Read our blog to learn more about Mickey Fine, pharmacy owner Jeffrey Gross, and how you can help the victims of the wildfires.

Our thoughts are with everyone affected by the wildfires.

Product News & Features

Community Pharmacy Management Software

Add PatientFacilityCategoryList to Account Statement Summary Report Templates

The *PatientFacilityCategoryList* field is now available on the **Account Statement Summary By Patient**, **Account Statement Summary Ungrouped**, and **Account Statement Summary By Origin Ref Num** report templates.

When sorting statements for individual patients, your pharmacy can quickly reference all facility categories to guide specific workflow.

Add Delivery Method and Sync Status to Rx Search Report Template

The *PatientDeliveryMethodText* and *PatientSyncStatusTypeText* data fields are now available on the **Rx Search** report template.

The **Rx Search** report can be used to customize reports for individual store's needs. These additions provide additional context to existing fields such as *Delivery Method Comments*.

Add Label Printed By to Rx Transaction Search Grid

The *Label Printed By* columns is now available on the **Rx Transaction Expanded**, **Expanded with Comments**, and **Expanded Financial** search views.

This additional workflow column will help pharmacies better review employee productivity from the *Active Results* grid.

Pharmacist Spotlight

Kathy Campbell - Medicap Pharmacy

Dr. Kathy believes that health is foundational to living a great life. As a clinical pharmacist, she uses her training to take a scientific approach to improving her patients' quality of life. She is working to shift the idea that people only go to their pharmacist when they are sick. Through her 12-week lifestyle and weight loss program, she empowers patients to take control of their lives and learn to listen to their bodies.
