New Lapsed Drug Adherence Program

RedSail Advantage continues to provide your pharmacy with clinical programs intended to help support you in helping your patients improve medication adherence. RedSail will begin a new Lapsed Drug Adherence Program for the following drugs:

Jardiance & Xarelto – Estimated go-live date is August 23. RedSail will issue an administrative credit to the pharmacy in the amount of \$2 per care goal for participating.

Invega – Estimated go-live date is the end of August. Additional details to come.

If you have previously filled prescriptions for any of these medications, a system-generated care goal will automatically be triggered when the patient is 45 days past due for their refill and is filling another medication. View screenshots of the DIY opt-out process by [clicking here](#). Please take time to review this information with your team, and don't hesitate to reach out to your RedSail Advantage team at advantage@redsailtechnologies.com with any questions.

PRODUCT NEWS & FEATURES

+ Arkansas NADAC Export Report

A new report called *Arkansas NADAC Export (Total Paid minus NADAC is Negative)* is now available. This will allow pharmacies to clearly run the Arkansas NADAC Export report for prescriptions where the Total Paid value is \$0 or negative.

+ Add Full and Partial Bottle Counts to Inventory Worksheet Templates

The *FullBottleCount* and *PartialBottleRemaining* data fields are now available on the *Inventory Worksheet by Bin*, *Inventory Worksheet by Inventory Group*, and *Inventory Worksheet by Inventory Group and Bin* report templates.

Pharmacies can use this information to quickly review the expected bottle count when performing inventory maintenance.

+ Add EquivalentReorderPoint to Top X Most Dispensed

The *EquivalentReorderPoint* data field is now available on the *Top X Most Dispensed Rx Items* report template.

This will help pharmacies make review order points for items set to utilize equivalent ordering.

PHARMACIST SPOTLIGHT

Easton Bryant – North Century Pharmacy

Easton Bryant is all about building. Whether it be building a new pharmacy in rural Kentucky, growing a social media account from 5,000 to 150,000 followers, or starting a successful e-commerce service, Easton knows how to turn nothing into something. Even more importantly, he knows how to get the word out about that something.
