

Wheelwash™

Protect Your Poultry & Facilities

Avian influenza (H5N1) is a growing threat due to its highly contagious nature, spreading through contaminated materials. Wheelwash offers specialized cleaning and disinfection solutions to combat this threat and protect your agricultural operations.

Wheelwash Products

Agriwash

Robust, customizable cleaning solutions to thoroughly clean and disinfect vehicles and prevent the spread of disease.

**Innovative Solutions for a Safer
Agricultural Community**

At Wheelwash, we are dedicated to supporting the agricultural community with innovative cleaning solutions. Our cost-effective measures — available for rent and for sale — reduce the risk of spreading disease, including avian flu.

Protect your operations against potential outbreaks by adding our Agriwash and Bootwash solutions to your hygiene protocols. Together, we can ensure a healthier and safer environment for both your livestock and workforce.
