

Blueberry Pie À La Mode

By golly, this tastes just like blueberry pie! Chicago's Illuminated has captured the sweet, jammy, and cinnamon-spice crust flavors of real blueberry pie and made a flippin' 8% ABV beer out of it. Open up your piehole wide for **Tony's Humble Pie!**

Don't tell the dessert beer stars at Evil Twin or Southern Tier -- Illuminated's pie-filled prowess might just make them jealous! Untappd fans are just as baffled as we are, saying things like, "*Liquid Blueberry Pie*," and simply "*Damn*." Damn, indeed! How exactly did they make a beer pie?

- First, they unloaded 1.5 pounds of blueberries into each barrel Bet your grandma doesn't do that.
- They use a "White Stout" base to create a luscious, deep desserty mouthfeel with zero roast character.
- Vietnamese cinnamon induces sensations of fresh baked, graham-cracker-like crust.
- Madagascar vanilla beans and lactose unite for a creamy sweetness that tops the pie experience with French Vanilla ice cream. #alamodestyle

Just like you shouldn't eat a whole pie by yourself, this rich beer is better for sharing -- and impressing your friends with its true-to-pie flavors. Sadly, their small-batch status means there's never enough to go round. Call us pie thieves, but we *had* to nab a stash from Chicago's dessert beer fans for you.

**Brewed in honor of the late Anthony Bourdain, Humble Pie is a delicious, immersive dedication to the tastemaker's culinary wanderlust and love for the sweet things in life. RIP Tony.*
