

Are you a-MAZE-d yet?

If you're reading this, we're hoping the answer is yes. We're also hoping you want to know a little more about this piece(and us). The artwork was created as a custom gift from our team to yours.

The glass piece itself is called a "fracture," made by a hometown start-up named...spoiler alert...Fracture.

To put it all together, we had to "stalk" your agency a teeny bit to grab your logo. We hope you don't mind, and instead will grab the dry-erase marker and embrace the challenge of solving the puzzle.

If our resident pun-maker has it right, you'll find the solution a-MAZE-ing...and you'll be curious enough about SharpSpring to let us buy you lunch. :)
