

Did You Know?

When it comes to your fertility needs, we have you covered!

Cerapedics' medical plans offer you coverage for infertility diagnosis and treatment along with standard fertility preservation services, including three completed oocyte retrievals per year and unlimited embryo transfers in accordance with American Society for Reproductive Medicine guidelines. Fertility preservation for people with cancer and at-risk medically induced infertility is also included.

There are **NO** additional exclusions, limitations, or restrictions on fertility coverage or medications that differ from others under the plan. That means:

- **NO** additional deductibles
- **NO** additional coinsurance
- **NO** additional waiting periods
- **NO** additional copayments
- **NO** additional benefit maximums

We encourage you to explore these coverage opportunities, and as always, please reach out to Human Resources with any questions or for additional information.
