Dear Friend,

I have continuously strived to give you and all Fifth District residents the very best public service.

In addition to working diligently to improve public safety measures in our community, I have focused on delivering more infrastructure improvements including sidewalk repairs. I have also given special attention to energy efficiency, the environment and securing funding that has gone to help our families and children.

Over the years, we have realized great success, while facing many challenges together. In fact, our city's budget challenge is close to being resolved and our credit rating is back to A+.

I treasure your trust and confidence and I will continue to strive to give you an efficient and effective city government. I would be grateful and honored to have your WRITE-IN VOTE for City Council on Tuesday, June 6th.

Cordially,

Jackie
