Without a comfortable mattress that you love, it can be difficult to get a restful night's sleep. If your mattress is old, sagging, uncomfortable, etc, you might find yourself tossing and turning throughout the night. This restless sleeping can add up and create a sleep debt that has a negative impact on your life. Without a good night's sleep, it's hard to feel energetic enough to greet the day with power and accomplish the tasks you have before you! A comfortable mattress that fits you as an individual is a huge part of getting that restful, dream-land sleep you want.

### **We have Tempur-Pedic Mattresses**

### **The Tempur-Cloud Elite**

The Tempur-Cloud Elite mattress is part of the Tempur-Pedic Cloud® collection. This collection is made for individuals who want a softer mattress and like softer support when sleeping. If you are the type of person who wants to feel like you're sleeping on a cloud or bundle of cotton candy, this mattress could be the one you are looking for.

### **What features does this model have?**

The Tempur-Cloud Elite has many plush layers of the TEMPUR® material on top. This gives the soft felling of the mattress while the core is made out of a support material that molds to fit your shape. This combination creates a soft, yet still individualized, sleeping experience on this unique mattress.

The Tempur-Cloud Elite has many of the features that are part of all Tempur-Pedic mattresses. The brand prides itself on being innovative and a leader in the mattress world. You can be sure with this brand that you are getting a good quality mattress with a strong brand name that comes along with it.

### **The Tempur-Pedic Cloud Elite also comes with these features:**

1. SmartClimate® System: This is a fabric that wicks moisture to give you a comfortable, dry sleep. The fabric rests on top of the mattress and is cool to the touch.
2. EasyRefresh® Top Cover: This is also a feature on this model as well as every other Tempur-Pedic mattress. It is a removable cover that zips on and off easily. This makes washing the mattress easy and gives you assurance that your mattress is clean.
3. Tempur-Breeze® Cooling System: This is a feature that integrates many different technology to help keep you cool while you sleep.

These features make the Tempur-Cloud Elite a great option if you are looking to keep cool at night. Keeping cool is something that is pretty important in this part of the county as it get pretty hot here. Also, if you are looking for a soft mattress, this could be the right model for you.
