WORK HISTORY

Principal ServiceNow Consultant November 2024 – Present

ThinkTek LLC – The Department of Defense | Fairfax, VA

- Lead an O&M workstream for the app development team consisting of 20+ applications varying from custom to out of the box, coordinating cross-functional collaboration.
- Serve as scrum master for a cross-functional team of 8, facilitating daily standups and sprint planning, ensuring adherence to Agile best practices, leading to a 25% increase in team productivity.
- Conduct functional and regression testing, validating system configurations in Test environment.
- Lead Pre-Deployment Testing, collaborating with end-users to identify defects and ensuring compliance with business requirements.
- Generate and track change requests, coordinating with the Platform & Governance team to ensure timely implementation.

Sr. ServiceNow Business Analyst/Project Lead February 2024 – November 2024

Koniag, Inc. – The Department of State | Chantilly, VA

- Confer with 11+ SMEs to elicit requirements for Falcon and Reunification apps to refine user stories.
- Decrease personal backlog of 40+ user stories to less than 20 in under 6 months.
- Provide enhancement recommendations to SMEs for Falcon and Reunification apps.
- Proactively identify system defects for resolution to reduce impact on operations.
- Conduct unit and spot testing for 8+ user stories per sprint, ensuring code is functioning as expected.
- Perform data cleanup (often 100s or 1000s of records) on Falcon data to mitigate or eliminate data discrepancies.

ServiceNow Technical Analyst/Scrum Master November 2022 – February 2024

MetaPhase Consulting – The Department of State | Reston, VA

- Designed an approval workflow for the client which alleviated their administrative burden by reducing time spent consolidating and reviewing procurement forecast submissions by 60%.
- Function as the O&M product lead for 5 products, as well as provide technical and administrative support to 4 cross-cutting project teams.
- Serve as the Scrum Master for 2 development teams (ServiceNow and AWS) consisting of 8 members in which I facilitate scrum ceremonies, remove barriers, and mitigate risks.
- Facilitate 2-3 monthly discovery workshops with Product Owners and key stakeholders to extract As-Is business processes and identify outstanding requirements for To-Be processes.
- Develop and maintain project schedules, reports, and dashboards ensuring development teams adhere to timeliness and Executive leadership has project visibility.
- Perform Tier 3 support to resolve and mitigate system issues by 37% by replicating the issue in a Test environment and collaborating with developers to determine solutions or workarounds.

Business Analyst April 2021 – November 2022

ECS – The Department of Homeland Security | Arlington, VA

- Proposed and spearheaded the implementation of utilizing video recordings along with Knowledge Articles to support product releases which increased adoption rates by 34%.
- Created and managed user accounts in ServiceNow by standardizing data and performing data cleanup.
- Developed 3 monthly reports to inform Senior leadership of the amount and types of tickets being fulfilled within the Tier 1/Tier 2 group.
- Performed Tier 1/Tier 2 platform support to DHS customers.
- Drafted technical documents such as SOPs, Job Aids, and User Guides that support fulfillers and end users.
- Collaborated with the Project Manager and Scrum Master to identify documentation, communications, and training needs ensuring a seamless adoption of the released application.
- Prepared for weekly releases by working with the Platform Administrator to consolidate update sets to push to Production.

Business Analyst June 2020 – April 2021

EGlobalTech – The Department of Homeland Security | Vienna, VA

- Proposed an optimized process for handling requests which improved efficiency and catapulted processing metrics upward by 19% and reduced the number of daily requests.
- Consulted with Privacy Office Senior leadership to process 100+ requests per day.
- Generated 2 bi-weekly status reports and shared the findings, and conclusions with the team to improve strategy and operations.
