A P M & D E V
2 1 3 2 2 1 2

Environments that incorporate **both** DevOps and end-to-end APM keep pace with rapid-fire, iterative dev cycles.

Dev ← → IT ops

93%
of companies are increasing alignment between development and IT ops.

> "When our end customers notice that we're moving forward, they're excited about the changes and they can see the benefits."
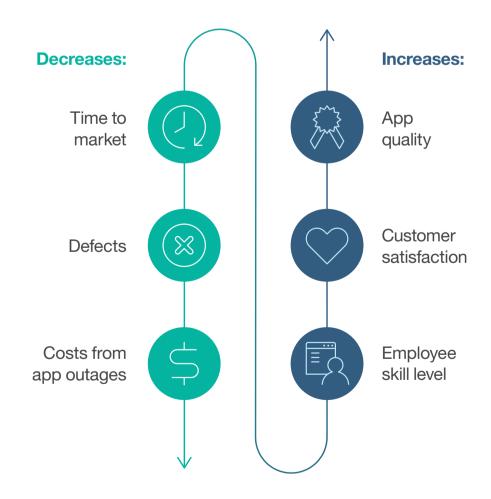

App Developer, Wholesale, 1000–4999 employees

Dev ← → Production

76%
use APM tools during dev **and** production.

APM & DevOps = Your path to success

5+

Companies that embrace DevOps practices are

46%
more likely to have launched 5+ new apps in the past three years.

Decreases:
- Time to market
- Defects
- Costs from app outages

Increases:
- App quality
- Customer satisfaction
- Employee skill level
