## ABOUT ME

I am a writer, web developer, and graphic designer with experience in various forms of media, topic, and audience writing. My main skills are focused on technical writing and communication as well as accessible user-centric design, but range anywhere from creative writing to scientific and medical technical communication to suit my employer's needs.

## WORK EXPERIENCE

### Communication Intern

Virginia Clean Cities

June 2024 - May 2025

During my time in VCC, I have been responsible for writing newsletters, blog articles, managing social media and event posts, engaging in web page design, creating physical media and digital graphics, and editing both outreach and internal documents.

### Research Assistant

Friends of Gadsden Creek

January 2025 - May 2025

As a research assistant for Friends of Gadsden Creek (FOGC), my duties centered around the evaluation, analysis, and construction of several case studies to be presented to FOGC members and stakeholders to review as inspiration and strategies for the project.

### Publicity Committee Member

Madison International

August 2021 - May 2022

As a publicity committee member of Madison International I interviewed visiting students from JMU's CISR Program and documented a personal experience article. I also photographed events and managed the social media account and circulated internal news.
