JAMA Network has signed a multi-year strategic content agreement with OpenEvidence, a rapidly growing clinical decision support platform used by hundreds of thousands of clinicians nationwide.

Through this agreement, full-text and multimedia content from *JAMA*, *JAMA Network Open*, and the 11 JAMA specialty journals — *JAMA Cardiology*, *JAMA Dermatology*, *JAMA Health Forum*, *JAMA Internal Medicine*, *JAMA Neurology*, *JAMA Oncology*, *JAMA Ophthalmology*, *JAMA Otolaryngology–Head & Neck Surgery*, *JAMA Pediatrics*, *JAMA Psychiatry*, and *JAMA Surgery* — will be integrated into the OpenEvidence platform.

This partnership expands the reach of JAMA Network content and makes peer-reviewed science from across the 13 journals more accessible to practicing clinicians.
