(Benefits section)

Headline: Leverage industry expertise to find the top talent for your teams

Overview: While you're running your ongoing programs, we're working in the background to maintain a pool of eligible candidates.

<p>Hire quickly <i>and</i> save costs</p> <p>Save yourself from sifting through hundreds of irrelevant CVs. Avoid the costs of initial interviews. Steer clear of accidental hires.</p> <p>Within 48 hours of initial engagement with you, we will send you vetted resumes of only the best professionals based specifically on your requirements.</p>	<p>Hire <i>your</i> way</p> <p>From flexible pricing to customized processes, we understand what you need and we know what it takes to hire the right professionals.</p> <p>Our team will work with you to understand your vision, technical needs, and team dynamics.</p> <p>Scale up or down based on the ebb and flow of your hiring strategies and we'll fall in line. No strings attached.</p>	<p>Leverage industry expertise <i>and</i> save time</p> <p>We are ready for tomorrow's business challenges. We embrace specialized and advanced skills and our team comprises only the top industry experts in tech recruiting.</p> <p>Combined with reliable analytics, we'll find the right fit for the openings at your company. Finding the right personnel has never been smoother.</p>	<p>Only hire the best - guaranteed</p> <p>Every applicant in the network is rigorously tested and assessed, and we only accept the top professionals to our candidate pool.</p> <p>Work with your new team member on a trial basis and only pay when satisfied. There's no better way to ensure you've hired the right people for the job.</p> <p>Say good-bye to the days of high churn rates.</p>
---	--	---	--

What we save for you:			
250	75%	25	\$4100
The average number of applicants for each job posting	The number of resumes that need to be screened out of your system per open position	The average number of minutes needed for initial resume review per role	The average cost a company spends on a bad hire

(section: How it works)
 Headline: Transform your business with top talent
 Overview: We recruit high-performing IT teams while managing the quality and mitigating the risks that come with the process. We offer full visibility at all stages of the project end-to-end. Here's how it works:

<p>We learn about your needs, inside & out</p> <p>A dedicated tech recruiter talks with you and with your team to fully understand your company's technical profile and, with you, outlines a critical skillset to guide the recruitment search.</p>	<p>Our recruiter designs a process just for you</p> <p>This includes customizing initial interviews, analyzing data and scheduling, determining assessment criteria and more.</p>	<p>You hire candidates based on real insights</p> <p>We gather decision-making insights during interviewing and assessment stages, which in-turn helps you make quick and easy decisions.</p>	<p>Onboarding is tailored to your organization</p> <p>Our technical experts and service partners support hired candidates for free, during the course of three weeks so they can onboard smoothly and quickly, and all at low costs to you.</p>
