CLINICAL EXPERIENCE	Mozaic Senior Life , Bridgeport, CT <i>Level I Fieldwork Student-Mental Health: January 2025-April 2025</i> - Facilitated cognitive and social engagement through interactive games like <i>Whiteboard Wordle</i> and “<i>What Am I?</i>” <i>Riddles</i>. - Designed and led a <i>Memory Collage</i> activity to encourage reminiscence, self-expression, and fine motor use through visual media. - Implemented a <i>Categories Sorting Game</i> to support cognitive categorization, teamwork, and visual-perceptual processing. - Adapted all activities using grading strategies to meet varying cognitive and physical abilities. - Promoted group cohesion and communication by fostering a supportive and inclusive environment. - Demonstrated professional communication, ethical awareness, and client-centered care in a geriatric group setting. - Administered Checklist of Leisure, Interest, and Participation (CLIP) assessment to identify meaningful leisure interests; adapted administration to accommodate client’s physical limitations, leading to valuable insights for future intervention planning. Monday Night Social (Sacred Heart University) , Bridgeport, CT <i>Level I Fieldwork Student-Geriatrics/Physical Disability: May 2025-August 2025</i> - Developed 5-week group sessions for young adults with a range of neurodevelopmental abilities. - Designed and implemented multi-component sessions integrating warm-ups, movement-based play, fine/gross motor activities, nutrition games, and obstacle courses. - Adapted group stations using visual supports and sensory-friendly tools to support participation and engagement. - Incorporated MyPlate nutrition education into physical games to reinforce health literacy and body awareness in a fun, interactive way. - Led yoga-based cool-downs emphasizing motor planning, posture, breathing, and mindfulness to promote regulation and transition. - Demonstrated flexibility and creativity in grading activities based on participant needs and varying physical or cognitive abilities.

- Facilitated peer socialization, team building, and communication skills in an inclusive group environment.
- Collaborate with peers and supervision to evaluate and refine treatment sessions based on client response and therapeutic goals.
- Performed upper extremity screening using goniometry and pinch strength testing; identified range of motion (ROM) and fine motor deficits and developed goals to support independence in daily tasks.

ADDITIONAL EXPERIENCE

Reach for the Stars Learning Center, Brooklyn, NY

Assisted Applied Behavior Analysis Therapist and Occupational Therapist, June 2024-August 2024

- Provided one-on-one support during therapy sessions and classroom activities to promote engagement, communication, and task completion.
- Facilitated structured play, fine motor, and sensory activities to support developmental and behavioral goals.
- Reinforced therapy goals through consistent prompting, redirection, and positive reinforcement.
- Collaborated with therapists and educators to adapt activities and monitor student progress.
