

**SPRING 2025**

**OT 526**

**TRANSFORMATION THROUGH HUMAN OCCUPATION II:**

**THEORY IN MENTAL HEALTH**

**SYLLABUS AND TOPICAL OUTLINE**

**CREDIT HOURS:** 2

**FACULTY:** Dr. Lola Halperin, EdD, OTR/L

**OFFICE PHONE:** 203-416-3796

**OFFICE EMAIL:** [halperinl@sacredheart.edu](mailto:halperinl@sacredheart.edu)

**OFFICE HOURS:** Monday-Friday, by appointment

**CLASS DAY AND TIME:** 12:30-2:30 pm on Thursday for section B; 3:00-5:00 pm on Thursday for Section A

**COURSE DESCRIPTION:** This course is designed for graduate occupational therapy students and will support development of clinical skills pertaining to evaluation, treatment planning and implementation, and documentation. This course is the first in a series of three that are scaffolded by level of complexity. Problem-based and team-based learning methods will be utilized to conduct classroom activities in this course. Students will be presented with clinical case studies prompting consideration of scientific evidence in relation to areas of occupation, client factors, performance skills, performance patterns, contexts/environments. Activity demands as well as culture, spirituality, and the meaning of occupations will also be considered. Case studies and assignments will encourage students to adopt a holistic view of clients and their caregivers during evaluation and treatment planning, and to learn communication skills required to work with an interprofessional healthcare team. **Transformation through Human Occupation: Theory in Mental Health will place specific emphasis on theory utilized in mental health through lecture and case-based learning.**

**CLASS FORMAT:** This course is designed utilizing an experiential approach to learning. **The format for the Transformation through Human Occupation: Theory in Mental Health portion of the course will be lectures, large class discussions, and TBL experiences. Students will also engage in a service-learning project, which will involve developing a therapeutic activity and facilitating it with partners in the community. Additionally, students will work in small groups to create mock quizzes and deliver them to their peers in class.**

**COURSE RELATIONSHIP TO OCCUPATIONAL THERAPY PRACTICE AND AOTA VISION 2025:**

*“As an inclusive profession, occupational therapy maximizes health, well-being, and quality of life for all people, populations, and communities through effective solutions that facilitate participation in everyday living” (AOTA, 2025).*

For our profession to fulfill its centennial vision, we need professionals who are not only competent, but are also ethical, able to communicate effectively with a team, able to use theory, ready to consider contextual aspects that

might alter clinical decision making, and comfortable using available evidence to justify their decisions. This course will help you begin to do all of that while also practicing a client-centered approach.

**RELATIONSHIP TO CURRICULUM DESIGN:** The Sacred Heart University occupational therapy program curriculum-design is based on the longstanding symbol of occupational therapy, the profession, going back to our professional history and roots, to that of weaving. Weaving is the craft of fabric production, in which two distinct sets of yarns or threads are interlaced at right angles to form a fabric or cloth. The visual representation of a piece of cloth shows the intersections of the warp and weft of the woven fabric. Our curriculum design utilizes the warp as a representation of the values of the profession, the program, and the university. Within this course the values of *authenticity, justice, integrity, altruism, and open-mindedness* are emphasized. The weft are the threads or streams of occupational therapy content, knowledge, skills, the experiences that comprise the foundation of our program (occupational performance analysis and interpretation, enabling occupations, scholarship, professional communication, interpersonal skills, and professionalism). This course incorporates all the above.

**TEACHING AND LEARNING METHODS:** The Transformation Through Human Occupation II course utilizes a multimodal approach to teaching and learning, including didactic lectures, large and small group discussions, experiential learning activities, and self-directed learning. Instruction may also include on-line synchronous and asynchronous experiences. **In the Transformation through Human Occupation: Theory in Mental Health portion of the course, lectures and class discussions will be supplemented by TBL activities, student-led mock quizzes, service-learning projects, and online exams.**

## **COURSE POLICIES**

**STUDENT BUDGET FOR COURSE SUPPLIES:** None

**INDIVIDUAL AND GROUP WORK:** Students are responsible for independent reading of all content materials. Additional assignments will be completed individually or in groups. For all assignment details see topical outline and grading rubrics on Blackboard.

**ACADEMIC INTEGRITY:** refer to Program Manual

**ATTENDANCE:** As per program policy, a 100% attendance rate for all courses is required. Absences from classes are allowed only under extraordinary circumstances, such as illnesses, emergencies, religious obligations, or important family events, e.g., wedding of an immediate family member. Documentation for an absence due to an important family event requires at least three weeks advance notice, and documentation of all other absences confirming circumstances that caused them are required within a week of returning to school. Please contact the course instructor in advance of an absence unless it is an emergency. In case of emergency, notify the department as soon as possible. Failure to follow these procedures will result in the total grade reduction of one letter grade increment for each unexcused absence. Please refer to COVID Contingencies policy in the Student Manual with regards to absences/isolation for colds and flu symptoms. Please note that, while classes might take place online (using Zoom, Webex, or Microsoft Teams) in case of inclement weather or other unforeseen circumstances, attendance policies for the online classes are the same as for the in-person classes. To the extent permitted by federal and state copyright laws, the class lectures and materials provided by the professor are copyrighted. By participating in the class lectures, students consent to the video and audio recording of said lectures. As part of the requirements of the course, students are required to participate, whether in person or via electronic communications. At the professor's discretion, students may be required to leave their audio and video devices on during the class lectures.

**PROFESSIONAL BEHAVIORS:** refer to Program Manual

## **ACCESS AND ACCOMMODATIONS**

**THE CENTER FOR TEACHING AND LEARNING:** The Center for Teaching and Learning (CTL) offers the following services free of charge to all SHU students: 1-on-1 tutoring with professional and peer tutors; group study sessions and office hours led by Classroom Learning Assistants (CLAs); specialized Learning Labs in math, biology, and genetics; writing support through the Writing Center and online writing lab (OWL). The University encourages all students to proactively seek academic support. The CTL is located on West Campus in suite W-223B. Students can schedule tutoring appointments on the tutoring portal. For more information, please contact Lisa Henderson, Coordinator of Learning Support Services, at [hendersonl3@sacredheart.edu](mailto:hendersonl3@sacredheart.edu), or visit our learning support services webpage.

**ACADEMIC ACCOMMODATIONS AND THE OFFICE OF STUDENT ACCESSIBILITY:** Sacred Heart University provides equal educational opportunities for all students regardless of disability status. Students requesting accommodations should contact the Office of Student Accessibility. Students must be registered with the Office of Student Accessibility and submit appropriate documentation to be granted accommodations. For further information about requesting accommodations, please contact Kathy Radziunas, Director of the Office of Student Accessibility, [radziunask@sacredheart.edu](mailto:radziunask@sacredheart.edu), or Laurie Scinicariello, Assistant Director of the Office of Student Accessibility, [scinicariello@sacredheart.edu](mailto:scinicariello@sacredheart.edu).

**OUR COMMITMENT TO DIVERSITY, EQUITY, AND INCLUSION:** Sacred Heart affirms and strives to make available for every student a learning environment that is welcoming, equitable, and culturally sensitive and is supported by a curriculum that celebrates diverse voices, fosters agency, and encourages the capacity for self-advocacy. Although we at SHU MSOT program know there is much work to be done, we will do what is needed to advance the cause of social justice on our campus and in the community as we learn together and from each other. To read more, visit the You Belong at SHU web page <https://www.sacredheart.edu/sacred-heart-life/you-belong-at-shu/> If you have any ideas about ways to enhance your success, please reach out to your faculty or the Program Director. If you feel that you have been mistreated in any way, you are encouraged to submit a Bias Incident Report or contact [diversityandinclusion@sacredheart.edu](mailto:diversityandinclusion@sacredheart.edu)

**REQUIRED TEXTS** (Please note these textbooks will be used across this course series).

### **Textbooks new to this course:**

Brown, C. & Stoffel, V.C. (2019). *Occupational therapy in mental health: a vision for participation* (2nd ed.). FA Davis.

Cole, M. B. (2018). *Group dynamics in occupational therapy: The theoretical basis and practice application of group therapy* (5th ed.). SLACK Incorporated.

Sames, K.M. (2015). *Documenting occupational therapy practice* (3rd ed.). Pearson Education Inc.

### **Textbooks from prior courses:**

**RECOMMENDED TEXTS:** For recommended texts see documents posted on Blackboard.

**PULLING IT ALL TOGETHER WITH LEARNING OBJECTIVES**

Each program in OT must meet the same Accreditation Council for Occupational Therapy Education (ACOTE) standards. How they are met varies from program to program. In each program, each standard must be addressed in at least two courses. The standards that are addressed in this course are listed in the table below. This link will allow you to review the [ACOTE standards](#).

The course learning objectives are linked to the ACOTE standards as well as the program’s objectives, mission and vision, and the overall curricular design. Table 1 shows the connection between **the entire course series** learning objectives, the program objectives they are linked to, and the ACOTE standards that are addressed in this course, as well as how we plan to meet and measure the learning objectives for this course.

**Table 1- Learning objectives and ACOTE standards**

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
Effectively gather all necessary information pertaining to client’s occupational profile analysis from the case study or the electronic health records (EHR Go) system	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.4.15</b>	EHR GO presentation and practice  Case discussion in small groups  OTPF-based case analysis	Faculty evaluations of student’s participation in small group discussions  Peer evaluations

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
Summarize the occupational profile of the clients portrayed in the clinical case studies, including information on client's personal and environmental contexts	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.1.2</b>	Lectures  Case discussion in small groups  OTPF-based case analysis	Faculty evaluations of student's participation in small group discussions  Peer evaluations  Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)
Perform activity analysis pertaining to each clinical case introduced throughout the semester, to inform the choice of applicable occupational therapy assessments and interventions  Analyze, grade and modify interventions according to child behaviors and data	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.3.2</b> <b>B.3.6</b> <b>B.4.3</b> <b>B.4.4</b>	Lectures  Activity grading and modification during in-class intervention demonstrations  In-class practice of short- and long-term goals and SOAP notes writing	Faculty evaluations of student's participation in small group discussions  Peer evaluations  Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)  Quizzes/Practical Exams
Formulate appropriate and measurable long-/short-term goals and discharge plans for the clients portrayed in clinical cases while considering their occupational performance analysis  Formulate appropriate long- term goals and measurable short-term objectives	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.4.2</b> <b>B.4.3</b> <b>B.4.9</b> <b>B.4.28</b>	Lectures  In-class practice of short- and long-term goals and SOAP notes writing	Faculty evaluations of student's participation in small group discussions  Peer evaluations  Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)  Quizzes/Practical Exams

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
<p>Use credible research evidence and select appropriate evidence-based occupational therapy assessments and interventions for each clinical case and defend decisions made</p> <p>Make occupational therapy clinical decisions and defend decisions using evidence. Value client centered care and family centered practice. Demonstrate respect for diversity and consider cultural differences in choices regarding assessment, goals, and intervention</p>	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.2.1</b> <b>B.4.2</b>	<p>Lectures</p> <p>SHU Health Sciences Librarian presentation</p> <p>Case discussion in small student groups</p> <p>OTPF-based case analysis</p> <p>In-class practice of short-term and long-term goals and SOAP notes writing</p> <p>Independent student research</p> <p>Student presentations</p>	<p>Faculty evaluations of student's participation in small group discussions</p> <p>Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)</p> <p>Role-play assignments</p> <p>Peer evaluations</p> <p>Service-learning projects</p> <p>Quizzes/Practical Exams</p>
<p>Incorporate client-centered practice principles into your clinical reasoning and decision-making</p> <p>Value client centered care and family centered practice. Demonstrate respect for diversity and consider cultural differences in choices regarding assessment, goals, and intervention</p>	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.4.1</b> <b>B.4.2</b> <b>B.4.23</b>	<p>Lectures</p> <p>Case discussion in small student groups</p> <p>OTPF-based case analysis</p> <p>In-class practice of short- and long-term goals and SOAP notes writing</p>	<p>Faculty evaluations of student's participation in small group discussions</p> <p>Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)</p> <p>Role-play assignments</p> <p>Peer evaluations</p> <p>Service-learning projects</p> <p>Quizzes/Practical Exams</p>
Select appropriate occupational therapy assessments and	Demonstrate the knowledge and	<b>B.1.2</b> <b>B.3.2</b> <b>B.3.6</b>	Lectures	Faculty evaluations of student's participation in small group

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
<p>interventions for the clients portrayed in the case studies while taking into consideration the personal, cultural, and other contextual factors embedded into each case and defend decisions made</p> <p>Follow proper administration and scoring procedures for evaluation and assessment Make accurate observations of child development and performance Interpret evaluation results correctly</p>	<p>skills required of an entry level occupational therapist, including critical thinking and clinical reasoning</p>	<p><b>B.4.2</b> <b>B.4.3</b> <b>B.4.4</b> <b>B.4.5</b> <b>B.4.9</b> <b>B.4.10</b></p>	<p>In-class demonstrations and practice of OT assessments and interventions (including videos and clinical simulation experiences involving standardized patients)</p> <p>In-class practice of short- and long-term goals and SOAP notes writing</p> <p>Student presentations</p> <p>Role-plays</p> <p>Visits to the service learning sites</p>	<p>discussions</p> <p>Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)</p> <p>Peer evaluations</p> <p>Role-play assignments</p> <p>Service-learning projects</p> <p>Quizzes/Practical Exams</p>
<p>Identify potential mobility/community access issues pertaining to the case studies presented throughout the semester and select appropriate assessments and interventions for the clients portrayed in the cases studies</p>	<p>Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning</p>	<p><b>B.4.14</b></p>	<p>Lectures</p>	<p>Faculty evaluations of student's participation in small group discussions</p> <p>Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)</p> <p>Peer evaluations</p> <p>Role-play assignments</p> <p>Service-learning projects</p> <p>Quizzes/Practical Exams</p>

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
Follow proper administration procedures for/use appropriate safety precautions with all selected assessments and interventions	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.4.4</b>	Lectures  In-class demonstrations and practice of OT assessments and interventions (including videos and clinical simulation experiences involving patient actors)	Faculty evaluations of student's participation in small group discussions  Peer evaluations  Student group facilitation evaluation as provided by the course instructor and peers  Service-learning projects  Practical exams
Follow proper administration procedures for occupational therapy assessments and interpret the results correctly	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.1.4</b>	Lectures  In-class demonstrations and practice of OT assessments (including videos and clinical simulation experiences involving patient actors)	Faculty evaluations of student's participation in small group discussions  Peer evaluations  Practical Exams
Practice client and care-giver interviews, and participation in interprofessional team meetings while in class	Exhibit team collaboration skills, inter-professional practices, and culturally competent communication	<b>B.4.22</b> <b>B.4.23</b>	Clinical simulations involving standardized patients  Student presentations  Role-plays  Visits to service-learning sites	Role-play assignments

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
Practice presenting discharge plan recommendations to the client/caregivers/interprofessional team	Exhibit team collaboration skills, inter-professional practices, and culturally competent communication	<b>B.4.22</b> <b>B.4.23</b> <b>B.4.28</b>	Lectures Case discussion in small groups Role-plays	Role-play assignments
Create documentation that reflects the effect of/need for occupational therapy  Complete coding and billing appropriately and ethically	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.4.22</b>	Lectures  In-class practice of short- and long-term goals and SOAP notes writing	Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)
Identify instances in which advanced level OT services or non-OT evaluations and/or interventions may be required and potential referrals	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.4.22</b> <b>B.4.23</b> <b>B.4.26</b>	Lectures  Case discussion in small student groups	Faculty evaluations of student's participation in small group discussions  Peer evaluations  Written assignments (including Activity Analysis Chart, Goals, SOAP notes, and treatment plans)
Identify the sociocultural, socioeconomic, and diversity factors that need to be taken into consideration when planning and implementing the service-learning project	Promote justice through compassionate service to the local and global communities	<b>B.1.2</b> <b>B.4.2</b> <b>B.4.3</b>	Lectures  Small group discussions  Service-learning site visits	Service-learning projects and reflection paper
Design therapeutic groups for peers and community partners that incorporate solid clinical reasoning,	Promote justice through compassionate service to the local	<b>B.2.1</b> <b>B.3.4</b> <b>B.4.2</b> <b>B.4.3</b> <b>B.4.9</b>	Lectures  Participation in faculty- and	Student group protocol  Student group facilitation evaluation as provided by the

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
appropriate theory and research evidence, and principles of occupational balance and personal wellness	and global communities	<b>B.4.10</b> <b>B.4.21</b> <b>B.4.27</b>	student-facilitated groups  In-class discussion of group-based interventions  In-class planning and practice for group-based interventions  Visits to the service learning sites	course instructor and peers  Service-learning projects and reflection paper
Articulate the models and frames of reference that informed your decision-making when designing OT interventions	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.2.1</b>	Lectures  In-class discussion of OT interventions	Practical exams
Demonstrate therapeutic use of self when practicing occupational therapy assessments and interventions with peers and community partners	Exhibit team collaboration skills, inter-professional practices, and culturally competent communication	<b>B.4.1</b>	Lectures  In-class demonstrations and practice of OT assessments and interventions (including videos and clinical simulation experiences involving patient actors)	Service-learning projects  Practical exams

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
Reflect on personal traits and abilities and determine areas for personal growth and professional development	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.4.1</b>	Lectures Small group discussions	Service-learning reflection paper Faculty evaluations of student's participation in small group discussions Peer evaluations
Share and discuss information and ideas with peers/instructor during class discussions while using appropriate terminology, concise communication, and professional demeanor  Work effectively with others to gather information and make clinical decisions. Modify behavior in response to team needs. Discuss client issues with empathy and with thought to their privacy and confidentiality	Exhibit team collaboration skills, inter-professional practices, and culturally competent communication	<b>B.4.23</b>	Small group discussions  Student presentations	Faculty evaluations of student's participation in small group discussions  Peer evaluations
Provide constructive feedback to peers	Exhibit team collaboration skills, inter-professional practices, and culturally competent communication	<b>B.4.1</b>	Small group discussions	Faculty evaluations of students' participation in small group discussions  Peer evaluations
Modify behaviors in response to constructive peer feedback	Exhibit team collaboration skills, inter-professional practices, and culturally competent communication	<b>B.4.1</b>	Small group discussions  Student presentations	Faculty evaluations of students' participation in small group discussions  Peer evaluations

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
Use technology, such as audio recordings, videos, etc., to illustrate concepts while presenting in class	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning	<b>B.4.15</b>	Student presentations	Faculty evaluations of students' participation in small group discussions  Peer evaluations
Interpret client behaviors to adjust interventions accordingly. Explain the theoretical or clinical rationale behind selected intervention techniques. Defend their choice of assessment or intervention using varied methods of clinical reasoning, and/or research evidence. Apply research evidence appropriately to the decision-making process in clinical cases	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning  Engage in continual learning and evidence-based practice with intellectual open-mindedness	<b>B.4.2</b> <b>B.4.5</b> <b>B.4.11</b> <b>B.4.12</b> <b>B.4.14</b> <b>B.4.16</b> <b>B.4.24</b> <b>B.4.26</b> <b>B.5.4</b> <b>B.7.5</b>	Lectures  Small group TBL application exercises	Midterm/Final Exam Questions  TBL iRATs/tRATS
Demonstrate professional and client-centered interaction skills with families, clients, and other professionals.	Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning.	<b>B.4.17.</b>	In-class demonstrations and practice of OT assessments and interventions (including videos and clinical simulation experiences involving standardized patients)  In-class planning and practice for group-based	Role-play assignments  Student group facilitation evaluation as provided by the course instructor and peers

<p>Explain and summarize information within the time-frame allotted</p> <p>Demonstrate ethical and professional behaviors as a beginning occupational therapist</p> <p>Come to conclusions regarding occupational therapy clinical decisions with a case and defend decisions using evidence</p> <p>Formulate measurable goals and appropriate intervention strategies</p> <p>Apply OT theories and frames of reference to occupational therapy client cases</p>	<p>Apply ethical reasoning aligned with the AOTA and the program's values to make decisions and practice professionally</p> <p>Demonstrate the knowledge and skills required of an entry level occupational therapist, including critical thinking and clinical reasoning</p> <p>Exhibit team collaboration skills, inter-professional practices, and culturally competent communication</p> <p>Promote justice through compassionate service to the local and global communities</p>	<p><b>B.3.6</b></p> <p><b>B.4.2</b></p> <p><b>B.4.8</b></p> <p><b>B.4.9</b></p> <p><b>B.4.18</b></p>	<p>Small group discussion</p> <p>In-class demonstrations and practice of OT assessments and interventions (including videos and clinical simulation experiences involving patient actors)</p> <p>Lectures</p>	<p>Treatment plan assignment</p>

Course Learning Objective	Program Objective	ACOTE Standard	Learning Experiences	How Will the Learning Objective be Measured?
	Engage in continual learning and evidence-based practice with intellectual open-mindedness			

**Table 2 Description of Assignments**

ASSIGNMENT	DESCRIPTION AND GRADING
<b>Student-Led Mock Quizzes</b>	There will be a total of six seminars in this course that will begin with student-led mock quizzes. You will be expected to work on this assignment in small groups. Student groups will take turns creating one mock quiz each, while utilizing the assigned reading materials and employing solid clinical reasoning. You will have the opportunity to consult with the course instructor as you design your mock quizzes before delivering them to your peers in class. This assignment will be worth 16 points (16% of your total grade), and you will be graded as a group, based on the quality of your quiz content and delivery. Students will earn up to 8 points for the quiz content if the quiz questions demonstrate solid understanding of the assigned readings and appropriate clinical reasoning, as well as skillful articulation of ideas. Please see the Appendix posted to BB for more details on how to formulate your questions properly. Up to 8 points may be earned for the quiz delivery, if it is presented in a creative and engaging manner (e.g., using different question formats; utilizing Quizlet, Kahoot, or similar platforms; interacting with peers respectfully and enthusiastically). For this assignment to get graded, please submit the final version of your quiz to BB after receiving feedback on your draft from the course instructor.
<b>Midterm and Final Exams</b>	Students' knowledge of the material taught throughout the semester will be assessed via midterm and final online quizzes, which will include multiple choice, true/false, or matching questions. The exam questions will be based off the required readings and will present students with opportunities to clinically reason. Students will be expected to demonstrate more advanced levels of clinical reasoning during the final exam. Each exam will consist of 30 questions (1 point each). Both exams combined will be worth <b>60%</b> of the total grade.
<b>Service-Learning Project and Written Assignment</b>	Students will complete this assignment in small groups. Each group will develop and facilitate a therapeutic activity with partners in the community. Community sites will be provided by the instructor, who will also mentor project implementation. After reviewing information about the community sites, students will select the facility they would like to conduct their service-learning project at. They will submit a written report to the instructor within two weeks following the activity facilitation, to allow for a timely grading. The written report will be worth 15 points. Additionally, each student's individual performance as the activity facilitator will be graded on a 3-9 scale by the staff employed at the selected site. Both grading rubrics are available on BB. In total, this assignment will be worth 24 points (24% of the final grade).

**TOPICAL OUTLINE (for the entire course series)**

Week	Readings (to be completed prior to class!)	OT527: Team Collaboration in Mental Health	OT528: Application in Mental Health	OT526: Theory in Mental Health
1 January 6 <sup>th</sup> -10 <sup>th</sup>	<p>- Chapters 8, 10, 20, 47 &amp; 55 in Brown &amp; Stoffel</p> <p>- Chapter 12 from Kuhaneck &amp; Spitzer (posted to BB)</p>	<p><b>Case:</b> Lucy (an adopted twin from Belarus with Fetal Alcohol Syndrome)</p> <p><b>Assignments:</b></p> <ul style="list-style-type: none"> <li>- Activity Analysis Chart</li> <li>- PBL presentation on the assigned topic</li> </ul>	<p><b>Tuesday Lab:</b> Intro to the course; activity analysis charts; Pediatric Interest Profile; modifications for home environment and play</p> <p><b>Wednesday Lab:</b> DOTCA presentation with Dr. Sharon McCloskey, EdD, MBA, OT/L, Dip. COT, CTP; board games to enhance cognition in children</p>	<p><b>Didactic Material:</b></p> <ul style="list-style-type: none"> <li>• Intro to the course</li> <li>• Developmental needs of children</li> <li>• Impact of trauma on children's development</li> <li>• The role of play in children's development and mental health</li> <li>• Selecting and adapting activities for children with neurodevelopmental conditions</li> <li>• Intro to environmental and cognitive strategies for children with mental health conditions</li> </ul>
2 January 13 <sup>th</sup> -17 <sup>th</sup>	<p>Chapters 4, 9, 22, 32, 33 &amp; 57 in Brown &amp; Stoffel</p> <p>- Chapter 15 in Sames</p>	<p><b>Case:</b> Jacob (a young boy with ADHD from observant Jewish family treated in a private OT clinic)</p> <p><b>Assignments (due the week of January 20<sup>th</sup>):</b></p> <ul style="list-style-type: none"> <li>- COPM summary</li> <li>- 1 long-term goal (LTG) and 1 short-term goal (STG)</li> <li>- Presentation on the assigned topic</li> </ul>	<p><b>Tuesday Lab:</b> Clinical simulation using the COPM; goal-writing in mental health OT</p> <p><b>Wednesday Lab:</b> Classroom modifications for children with ADHD; behavioral and cognitive-behavioral (CBT) strategies for children</p>	<p><b>Didactic Material:</b></p> <ul style="list-style-type: none"> <li>• Private OT practice versus school-based OT</li> <li>• Intro to behavioral and cognitive-behavioral strategies for children with mental health conditions</li> <li>• Sensory processing of individuals affected by mental health conditions and sensory strategies for this population</li> </ul>
