The first AI generator I used was SocialBee a webpros brand. This was easy to use. You put in your prompt, and you can choose your tone of voice from the selections offered. You can also choose to generate the hashtag and include emoji, and you can input how many posts you want to generate.

The hashtags I created are: #TXSTobcatsmassmedia, #TXSTcommunicationspecialist, #Electronicmediawizards, #TXSTwritersofthefuture, and #SJMCdigitalmediagurus.

I only used the #TXSTbobcatsmassmedia for this.

These are the results I received from using the professional tone of voice.

The next AI generator I used was ChatGPT. This time I used the last four hashtags and received this output. These were just simple hashtag changes without any additional fluff. I kind of like the simplicity of this.

- **#TXSTCommChampions**

- **#SJMCMediaMavens**

- **#TXSTFutureWriters**

- **#SJMCDigitalDynamos**

TXSTcommunicationspecialist
SJMCelectronicmediawizards
TXSTwritersofthefuture
SJMCdigitalmediagurus

Those are great! Here are some catchy hashtags based on your ideas:

1. #TXSTCommChampions

2. #SJMCMediaMavens

3. #TXSTFutureWriters

4. #SJMCDigitalDynamos
