

MONAT® | VIP

hydrated Hair
is Happy Hair

Quench your hair's thirst and restore its natural vitality with our exclusive advanced hydrating formulation. The MONAT Advanced Hydrating Hair Care Collection helps you achieve the bounce, body and shine your hair deserves!

Why the Advanced Hydrating Hair Care Collection?

Hydration is essential to keep your hair looking and feeling healthy. The Advanced Hydrating Hair Care Collection is powered by hyaluronic acid-based technology to hydrate hair without weighing it down. Perfect for fine to medium hair textures and all hair types that feel dry and dull, this MONAT Collection is ideal for those seeking shiny, healthy-looking hair.

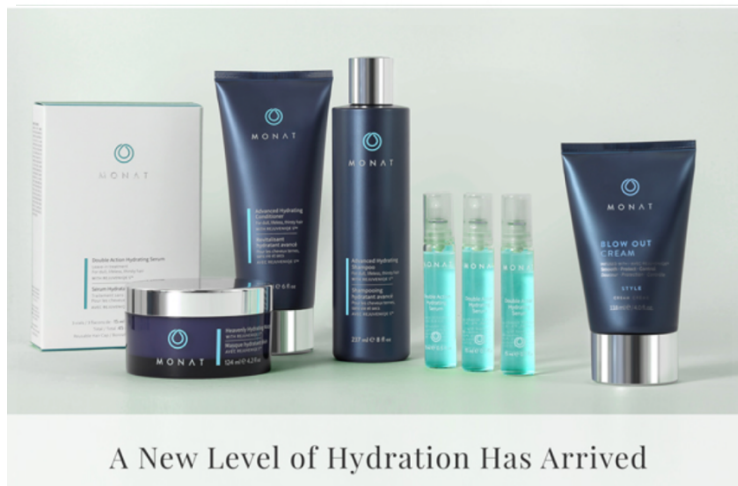

Why is it Good for *my* Hair?

Our formulation begins with REJUVENIQE S™—a supercharged version of REJUVENIQE™ Oil Intensive—to provide intense hydration and restore your hair's youthful resilience and luminosity. The Collection also contains PATCH20™, which combats dehydration.

The Benefits of Hyaluronic Acid

PATCH20™ is an innovative hyaluronic acid-based technology capable of holding 1,000 times its weight in water. This helps maintain your hair's hydration, which improves appearance while restoring bounce, body and shine to lifeless, dull-looking hair.

A New Level of Hydration Has Arrived
