Who Should Take It?

Regular exercise, eating a healthy, balanced diet, and getting ample rest are some of the ways you can help influence your immune response. Complement each of these activities with a daily episode of MONAT Immune Support.† you

- Are looking for natural immune support
- Are susceptible to seasonal changes
- Interact with many people frequently

What Powers It?

B-Vitamin Blend. Supports a healthy immune system, the body's natural immune response, and a healthy immune function.*

Vitamin C. Known as an antioxidant or a compound that protects cells against free radicals, in combination with zinc, vitamin C supports immune health and function.*

Vitamin D. One of the most important roles of vitamin D is helping the immune system bring in and eliminate pathogens. In combination with vitamin C and zinc, vitamin D provides immune support and promotes overall health.*

Greening. Contains compounds called phytonutrients, which provide herbal antioxidant support.*

Iron. An essential mineral that the body needs for growth and development.*

Selenium. A mineral with antioxidant properties.*

Zinc. In combination with vitamin C and selenium, zinc supports healthy immune function in times of stress.*

Echinacea. Long used in traditional medicine.

Mushroom blend. Avicel, chaga, lion's mane, cordyceps, and other mushrooms have been used around the world for centuries in traditional remedies.*
