The Critical Lab – Logo Concept

The logo for The Critical Lab visually represents the project's mission to enhance critical thinking, scientific inquiry, and civic engagement among youth. The design features a human head outline, symbolizing intellectual exploration and knowledge development. Inside the head, the entropy symbol is integrated, representing complexity, open-mindedness, and the dynamic nature of thought processes.

This symbolizes the idea that critical thinking challenges existing beliefs, fosters curiosity, and encourages the ability to analyze multiple perspectives.

The bold and structured typography reinforces the project's modern, educational, and trustworthy identity, making it approachable and impactful for the youth.
