Striking out Cancer: The Boston Red Sox Foundation Continues Advocating for Cancer Research alongside The Jimmy Fund, Celebrating their Decades of Partnership

BOSTON, MA- Entering its 70th year supporting the Jimmy Fund, the Boston Red Sox Foundation™, an organization that advances cancer awareness and supports cancer patients and their families. We welcome our supporters to join us on **October 1st** kickstarting Cancer awareness month with a walk to remember!

Being harbored on the iconic Boston Marathon trail, The Jimmy Fund is hosting a walk where participants can choose their distance and show their support.

“Since 1953, the Red Sox and the Jimmy Fund have been a team” says the Boston Red Sox Foundation as they continue to show their support year after year.

The Boston Red Sox’s long history on the field has created a fanbase in Boston like no other. Aside from their baseball legacy, they are also known in the community for giving back. Alongside other charities, the Boston Red Sox Foundation supports “The Jimmy Fund”, a charity backing cancer research and treatment through the Dana-Farber Institute. Since 1953, The Boston Red Sox Foundation has raised millions of dollars in support of the Jimmy Fund. **As we approach Cancer Awareness Month this coming October, The Jimmy Fund reminds us about the importance of giving back.**

Since 1953, The Jimmy Fund™ and the Boston Red Sox have been working side-by-side to promote Cancer-awareness. The Boston Red Sox Foundation™ has been working to raise money and support since 2002.
