

A LITTLE DESIGN STUDIO WITH A LOT OF HEART

A ONE-STOP SOLUTION FOR YOUR GRAPHIC DESIGN, PRINT, AND PACKAGING NEEDS

Pulp & Pixel is a small Montreal-based graphic design studio specialized in visual identity, print, and packaging - though we offer a lot more!

We tackle print and digital designs, shape new visual identities and logos from scratch, and refresh existing identities for those looking for something new.

We put our heart and soul into every project we take on.

Through partnerships with some of the best commercial printers coast-to-coast, we are happy to offer print services to our clients, including business cards, posters, brochures, and more.

We love to work with non-profits and community organisations, both locally and around the world.

Want to know a little bit more about our studio? Check out our [About Us page](#).

Whether you're starting from scratch and are unsure where to start, or are looking to hit the refresh button on your brand, we've got you covered.

Here are some of the services we offer:

- Visual brand identity and logo design
- Print design for business cards, brochures, annual reports, and more
- Packaging design for retail businesses, including the food and beverage industries
- Digital products such as social media collateral, online reports, infographics, and advertising
- Photography including portraits, products, events, and food photography
- Print services for brochures, annual reports, packaging, signage, and labels
- Translation services available
