

Dear %firstname%,

One of my favorite ways to enjoy my summer has always been to visit our beautiful beaches here in the Ocean State. This week, my office led the charge in an initiative to clean up Misquamicut Beach so that future generations can enjoy our natural resources for decades to come.

I brought state, town and business leaders together to create a collaborative solution to keep the Westerly shoreline clean. We added trash receptacles and recycling bins at the beach exit, and the Town of Westerly plans to hire a part-time staff person to enforce and monitor the program.

The best part? This solution doesn't require Westerly to increase beach fees. Being a Rhode Islander allows access to some of the most beautiful beaches in the country, but visiting them shouldn't come at a higher cost to residents.

[Read more about the project in the Westerly Sun here.](#)

As your Lieutenant Governor, I'm proud to take a stand and preserve our coastlines that are so integral to our local economy and our environment. The cleanup effort at Misquamicut was just one important step to preserving our natural resources and keeping Rhode Island clean and sustainable.

[Will you stand with me by donating to my campaign so I can keep working on cleaning up our beaches and preserving our natural resources as your Lieutenant Governor?](#)

Thank you for your support!

Sincerely,

Dan
