How to grow your dining collection effortlessly. Let's do it with our versatile Costola dinner set!

Start by adding a snack or salad plate—it's the easiest way to introduce a pop of color or print to your setup. Next, switch up your glassware! Try colorful or printed options to instantly refresh your table and create a new look every time.

Now, let's talk about bowls—ditch the matching ones and go for contrasts! You can even mix and match cups and saucers for extra drama. Want to take it a step further? Swap out the dinner plates! Pair bowls from the Costola collection with plates from another collection, and suddenly, you've got a whole new dining experience.

And don't forget the base—change your placemats! A simple swap can completely transform your tablescape. You can even add charger plates for an extra layer of elegance.

Finally, for those luxe dining moments, add a touch of gold! Whether it's gold-accented crockery or gleaming accessories, a little shimmer instantly elevates your setup.

So, go ahead—mix, match, and create a dining table that feels fresh and fabulous every single time! ✨
