

Your policy may ruin you

Hey Ayomide,

You know, policies are a big part of how we live our lives.

They're like rules we set for ourselves to stay on track and protect what matters.

But here's the thing—if your policies are outdated or don't fit with the modern world, they can actually hold you back.

The World is changing fast. Stick to the old ways and you will get stuck in no time.

Have you ever stopped to think about the rules you live by?

For some people, it's just the daily routine: work, come home, eat, relax, and maybe have some fun.

A lot of people have big plans, but don't know how to make them happen.

That's why it's important to step back, rethink, and look beyond just the here and now. Like they say, "Make hay while the sun shines."

One of the smartest ways to prepare for the future is by investing in education.

At Aiico Insurance, we've created the Education Legacy Assurance plan to help you do just that.

It's a simple and secure way to invest in your future today and plan ahead for education expenses.

Does this sound like something you'd like to try? If so, just send us an email at aiicopl.com—we'd love to help.
