

Greenland: escape the ordinary

Discover the magic of Greenland on a Hurtigruten Expeditions cruise

As sun seekers head south, a world of immense glaciers, looming mountains and glittering fjords awaits in the north. Home to some of the planet's hardest wildlife and traversed by intrepid explorers, Greenland beckons you to discover its unspoiled wilderness and awe-inspiring scenery. And what better way to experience this remarkable land than with Hurtigruten Expeditions, pioneers in Arctic exploration for over a century?

Up-close, immersive experiences

Sailing from Reykjavik throughout summer, Hurtigruten Expeditions' nimble ships navigate Greenland's east or west coast, exploring beyond the reach of larger vessels. For example, The Heart of Greenland – Disko Bay takes in the wonders of the west coast, from the mist-cloaked mountains of Evighedsfjord to colourful capital Nuuk, and the must-see, UNESCO-listed Ilulissat Icefjord. Alternatively, set sail to Greenland's remote eastern shores to explore the wilderness of Scoresby Sund, the largest fjord system on Earth.

Each destination is brimming with adventures designed to provide an immersive, yet non-intrusive experience, whether it's hiking along rugged coastlines, kayaking on mirror waters or engaging in local traditions. Greenland's wildlife is also

a major draw – watch out for Arctic foxes, humpback whales, caribou and white-tailed eagles.

The magic doesn't end when you reboard the ship: soak up the spectacular scenery as you glide past calving icebergs and bask in the mesmerising glow of the midnight sun.
