Intro to Gridiron Grades

We are currently working to create a community-focused website designed for football enthusiasts called Gridiron Grades!

The website will look to provide a platform for users to create, share, and view NFL player ratings, scouting reports, and NFL Draft prospect rankings.

Currently the Gridiron Grades website is in the development process, but we are expecting to have the site launched and available for users to access soon!

Here is a summary of the websites five main features:

Rate Your Favorite Team The rate your favorite team feature allows users to give their very own quick hitting analysis of their favorite team for every game as they will be asked to provide ratings on a scale of 1-10 on every player's performance from that week. Didn't watch the game closely enough to rate every offensive and defensive player? No worries! Users will not only have a "Mark Unsure" option but will also be given a filter option to select which side of the ball or position groups they would like to rate that week.

Player Ratings The player ratings feature gives users the opportunity to provide their own personal ratings for players all across the NFL as well as NFL Draft prospects.

Scouting Reports Users can create and publish their very own detailed scouting reports for NFL Draft prospects and NFL players from all 32 teams. Users can choose from templates from the Scouting Academy, PFF, SIS Sports, or create their own. The user will grade the player on many different aspects of their position. This can include anything from a quarterback's pocket awareness to a safety's awareness in zone coverage.

Draft Board Users can create their very own NFL Draft big board and position rankings as well as view the community rankings with this feature.

Community Community aggregated ratings will be created using submissions from all users that will be accessible in the community feature. Users will also be able to access the work of paid contributors on the community feature as they will be able to select up to 15 of their favorite contributors to show up on this page where they will be able to quickly access their scouting reports.

To stay up to date on when the website will be available sign up for Gridiron Grades Google Sheet Database which will also keep you up to date on free agency rumors, mock drafts, and provide background information on teams and players around the league.
