

A Summer That Stayed

A Short, Nature-inspired, Story-telling Prose

Summer is warm, a sweet promise
of ripened fruits, golden mangoes,
and juicy ice apples

The time when the dragonflies and
the bees buzz the happiest,
flitting from flower to flower,
sun-kissed

Sunflowers stand tall and bright,
soaking in the sun rays that
strengthen their spirit

The air is humid, often symbolic of
refreshing rainfall

The melodious coos of a koel
lend a musical aura to the ambience

The playful sunshine glistens like
dancing mirrors upon the water
droplets

Blooms grow healthy, pretty, and
scented

Wandering amidst all these subtle
and simple nuances, I realised that

This summer didn't just come

This summer, stayed with me

Beyond being just a season

In magical, untold ways of natural
allure

that whispered beauty, serenity,
and unmatched transience.

A Summer That Stayed
