

Angkor Hospital for Children
Presents
Dinner with a Difference 2025

Who we are

Angkor Hospital for Children (AHC) is a leading children's healthcare organisation based in Siem Reap, Cambodia. Since 1999, we've provided quality, compassionate health care to millions of children.

Why we're here

A child born in Cambodia is five times more likely to die before their fifth birthday than a child born in a wealthy country

74% of Cambodians live in rural areas

One in five Cambodians survive on less than US\$2.70 a day

Children from the poorest families are three times more likely to die early than children from wealthier families

During the Khmer Rouge, Cambodia lost an entire generation of health workers. Only 25 doctors survived

Leading causes of death are complications at birth, pneumonia, birth defects, diarrhoea and malaria — all preventable or treatable

"Without AHC, I don't think my son could've survived this."

Kosal was just four months old when he got very sick. He couldn't eat without vomiting, rapidly lost weight and started fainting. His mother Leahy was terrified.

Kosal had an intestinal infection called gastroenteritis. Within two weeks, his condition became critical when his bowel perforated — a life-threatening medical emergency.

"I felt so hopeless as his condition worsened. I prepared myself for the worst — I didn't think he'd make it."

Kosal's condition was dire. He stayed in our intensive care unit for the next three months while our staff worked tirelessly to help him.

After three surgeries and three months of intensive support, Kosal finally got better. Today, he's growing into a strong and healthy boy.

"I'm so thankful for AHC's staff, who never gave up on my son. Without AHC, I don't think my son could've survived this."

Event information

Do you want to enjoy a luxurious evening in one of the world's finest golf clubs? While savouring a delectable three-course meal and free-flowing drinks, enjoy unforgettable entertainment with a thrilling live auction, a captivating raffle and live music to dance the night away — all for an important cause. Oh, and did we mention complimentary island admission?

Have we hooked you yet?

If you're ready for a night to remember, visit [this link](#) to register.

****Full prize list and silent auction will be launched 14th of April**

The Siem Reap experience prize

Packed with the finest experiences Siem Reap has to offer, the lucky winner of this package gets to...

Enjoy the finest destination dining

Visit a private villa located just west of the ancient city of Angkor Thom where you can enjoy fine dining by candlelight, surrounded by rice paddies. Before dinner, take a romantic walk along our terraces or find a private spot for a cocktail seated amidst our spice gardens.

Avoid the crowds with a private luxury tour

Listen to the sounds of nature at work as you stand among the soaring trees and serpentine roots of Ta Prohm. Only the dip of your boatman's oar and the call of red-headed whistling ducks will disturb the tranquility of your sunset drink on an ancient Angkorian waterway.

Take a magical hot air balloon ride

Experience Siem Reap from a perspective like no other. Nestled amidst the awe-inspiring temples of Angkor Wat and the lush landscapes of the Cambodian countryside, these premium hot air balloon rides offer an unforgettable journey above this ancient land.

See your impact firsthand

Want to see exactly how you're changing lives? Meet the doctors, nurses, children and families you're impacting every day through your support. With your exclusive tour of the hospital, get a close-up look of an organisation pioneering children's health care in Cambodia.

DineBeyond

Meet your keynote speaker

"When children don't have anywhere else to go, they can come to AHC, and we can help them. That makes me proud to work here. This is where I belong."

Dr Leng Nara

Dr Nara has worked at AHC for the past eight years as a paediatric surgeon. He graduated from our specialty training programme in 2023, and has since gone on to take the lead on our Trauma and Critical Care Centre, treating hundreds of children and adolescents with traumatic injuries.

Meet your auctioneer

"It's brilliant to be back supporting the work of AHC! I hope everyone has a fantastic evening and we can come together to make a real difference!"

Andy Martin

Andy is a specialist teacher, a performance and rugby coach and an IOC-certified national sports safeguarding officer with over 20 years' experience in special and physical education. He's taught in 4 continents, travelled in 5 and regularly supports charities hosting and auctioneering.

Meet your DJ

"I'm excited to have a great time with everyone at this event while contributing to AHC's important mission."

Kamal Mahtani

Kamal has been DJ'ing since he was a teen, and his love for getting people to groove has not stopped since. His repertoire of music spans across most genres but is big on dropping tunes from the 70's, 80's and 90's. Bringing back good memories on any dancefloor is what Kamal does best.

The difference you make

11-month-old Minea arrived at AHC with a nosebleed and high fever. Tests showed she had severe dengue fever, which led to sepsis — a life-threatening complication of the infection.

"My daughter had never been so ill. We cried and begged the doctors and nurses to help," recalled Raksa, Minea's mother. "I have no money. I was worried about her health but also the cost."

But with antibiotics, intravenous and round-the-clock monitoring, Minea's condition quickly improved. After four days in intensive care, Minea transferred to our in-patient department.

During her 22 days at AHC, Minea received constant care by our doctors and nurses. Our nutrition team also handled her post-recovery diet, and our medical social work team took care of all her medical costs.

"If not for everyone at AHC, my daughter might've died. We received the best care, and it was free. AHC saved my daughter — I'll never forget it."

Give a gift. Save a life.

US\$500

could provide one child with life-saving treatment in our intensive care unit

US\$1,800

could run our emergency department for one week

US\$2,300

could treat one child with retinoblastoma for one year

US\$6,000

could treat one child with leukaemia for a year

US\$8,000

could pay for all medicine for all children in our intensive care unit for three weeks

US\$18,000

could pay for one year of training for a specialty doctor in surgery, anaesthesia or intensive care

Other ways you can help

Take part in December's Angkor Wat International Half Marathon to run, raise funds and save lives – in Siem Reap or from anywhere in the world!

Ask your employer about a donation matching programme, so that every dollar you give doubles in impact!
