

## Protect Your Card with Security Features

Credit and debit cards offer convenience, but what is the best way to manage your account security? UW Credit Union is at the forefront of the latest technologies to give you peace of mind with every purchase. Keep your accounts safe with convenient options to manage and protect your cards.

### Mobile Travel Verification

Our Mobile App can help confirm your debit and credit card transactions when you travel. [Mobile Travel Verification](#) sends location updates to your mobile device to identify legitimate purchases. By matching the location of your phone with transactions, it also decreases mistaken declines. You can enroll through our [App](#). It's easy to download the App if you don't have it yet.

### Card Transaction Notifications

You can opt in to receive [Card Transaction Notifications](#) on your card activity every time you make a purchase, allowing you to identify potential fraud sooner.

Enroll through Web Branch or our App and choose the format you prefer—push, email or text. We recommend you opt in to receive Card Transaction Notifications via push. These short, timely messages pop up on your mobile device.

You can also choose to receive other Notifications, including:

**Balance Notifications:** find out when you have a low balance, high balance, or an overdraft on your accounts.

**Account Activity Notifications:** see high transaction amounts, paycheck and cleared checks.

**Payment Due Notifications:** find out when you have reached your credit limit or a payment is due.

**Profile Notifications:** view new statements, notices, secure messages and personal reminders.

**Search Notifications:** track any of your saved searches.

**Card Transaction Notifications:** verify transactions as they happen and identify potential fraud sooner.

### Card Lock/Unlock

If you misplace your card, you can [temporarily lock](#) it immediately while you locate your card. Meanwhile, purchases are blocked and your account is safe. When your card is found, you can easily unlock it at any time.

On the leading edge of credit unions for these technologies, at UW Credit Union keeping your account information safe is our top priority.
