SUMMARY

5+ years of leadership as a Technical Project Manager and Designer within project lifecycles. Works effectively in collaborative and independent work environments.

EXPERIENCE

Cad Specialist / Project Manager, Mason Technologies ·············· Aug 2023 — Current

Deerpark, NY

- Managed infrastructure projects so that technicians complete services with correct tool supply, product, and floor plan information.
- Communicate daily with clients and technicians to ensure projects reach completion and clients retain satisfactory review of services.
- Design, markup, and edit floor plan wireframes using CAD softwares
- Updates CAD file directory via Sharepoint for multiple hospital sites
- Resized floor plan designs for optimal Arch D printing, cleaned floor plans that were hard to interpret, used iconography to show additions to plans such as cables, cameras, speakers etc..

Technical Project Manager / UI/UX Designer, Finally Free Productions ·········· Aug 2019 — Jul 2022

Levittown, NY

- Worked in multiple facets such as designing mobile and web Apps, selling and closing deals resulting in new clients and projects
- Completion of many mobile and web products via working with various designers, developers, clients & CEO
- Worked through project lifecycles of design, development, testing/debugging and launch of products.
- Wireframes (Low-High Fidelity) using Adobe Suite, and Figma design tools
- Prototype Testing - Once project is approved in design phase - linking all working mechanics of App (Clickable areas, animations, wireframe flows)
- Visual Design - Mobile Apps, NFT, Web Apps, Graphics, Videos Animations
- User Flow Creation - Create user flow of functionality after speaking with clients. Understanding how the product would work via code and API integration
- User Research - Used various research techniques to ensure friendly user experiences
- Use of AI programs such as Adobe Firefly and Chat GPT for logo branding, asset management, etc..
